# SEVEN STEPS TO DELIVERING AN OUTSTANDING BOUTIQUE EXPERIENCE.

The fitness industry is undergoing a period of change that's as fast-moving as at any time in its history. Driving this change is the growth of the boutique sector worldwide.

Whether you are setting up a boutique or PT studio, or operating an existing club and looking for ways to stay competitive, the race is on to offer something fresh, new and different.

## WHY ARE BOUTIQUE CLUBS SO POPULAR?

Some features of the boutiques' business model set them apart from what has previously been normal across the industry. For example, many boutiques work on a pay-as-you-train basis rather than memberships. But people's motivation for using boutiques isn't just about ditching long-term contracts.

What matters more is that boutiques excel at running superb workouts with a unique or specialist feel. They are usually high intensity functional training workouts with a brilliant blend of fun and effectiveness. Nobody gets bored: everybody gets challenged and finishes on a high.

## A PROCESS AND SOLUTIONS TO HELP YOU COMPETE.

Great functional training experiences require careful planning and meticulous execution. After many years of helping clubs to create superb functional fitness experiences, we have found what works well and what doesn't.

Our seven-stage process has proven itself in projects we've completed with clubs around the world; from new boutiques to established brands seeking new and better fitness experiences. Take a look at our summary of the process on the opposite page, and explore it in more detail by downloading your free copy of the complete 16-page report.

## PLANNING YOUR NEW FUNCTIONAL TRAINING SPACE?

Download our free booklet on how to achieve the launch of an outstanding functional training experience.

# SEVEN STEPS FOR A SUCCESSFUL BOUTIQUE.

## STEP 1:

### A VISION FOR THE CLUB.

A vision is most of all about understanding your customers. Who do you want to appeal to? What are their fitness and social goals from using a facility? What kind of experience will attract these people? Making firm decisions about your preferred customer profiles and how best to meet their needs enables you to provide unique, personalized experiences.

## STEP 2:

### EQUIPMENT THAT MEETS YOUR MEMBERS' NEEDS.

With a clear vision in place, it's time to choose suitable equipment. Variety is the key to engaging experiences and functional training equipment delivers, with dozens of options available. But don't become blinded by what's on offer: remain true to your vision and select equipment perfectly suited to your chosen member profiles.

## STEP 3:

### A BRILLIANT TRAINING ENVIRONMENT.

Boutiques have proven that the environment in which people train is an integral part of the overall experience. It's about great aesthetics - color schemes, lighting, wall graphics and so on - but it doesn't end there. Having a layout that works, suitable flooring and space-efficient equipment racks also contribute.

## STEP 4:

### KNOWLEDGEABLE, SKILLED AND CONFIDENT TRAINERS.

Functional equipment and free weights do not have on/off switches and they are not always intuitive to use. A club's trainers therefore need the knowledge to help members use the equipment safely and effectively. Add in the confidence to interact with members to form a sense of community and belonging, and you have a recipe for success.

## STEP 5:

### PROGRAMMING THAT EXCITES MEMBERS.

Most boutiques build their business around their programs, with each one having its own branding to communicate the experience and results members can expect. Without brilliant programming, there's a real danger that members will fail to get on board with functional training. Great programming teaches people how to use the equipment, brings them together for awesome social experiences, and delivers results over the long-term.

## STEP 6:

### A BUZZ ABOUT WHAT YOU DO.

Once the equipment, environment, trainers and programming are in place, it's time to tell the world. This starts with making sure that all of the club's staff (training and non-training) understand the key points about the equipment and programming. That's the starting point for communicating a clear message and generating word of mouth. Then it's about using online tools to spread the word more widely.

## STEP 7:

### CONSTANT EVOLUTION TO REMAIN ATTRACTIVE AND COMPETITIVE.

Offering the same experience for months on end can become tiresome and ultimately drive members into the door of a competitor. Boredom should not be an option. This is why regularly reviewing what you're offering is so important, coupled of course with an evolving experience that maintains the excitement and engagement.

# THERE IS NOTHING WE CAN'T DO WHEN WE SET OUR MINDS TO IT.

## WALL GRAPHICS.

Wall graphics have the power to transform your space, creating a sense of community and helping to inspire and motivate members. Escape makes sourcing brilliant graphics for your facility easy, with a simple process that achieves great results.

### A SIMPLE PROCESS FOR ACHIEVING GRAPHICS UNIQUE TO YOUR CLUB.

Amazing wall designs to bring your space to life are just a few simple steps away. You can have any combination of images, motivational statements and colors from the menu we provide. Tell us also the sizes of the walls you are transforming and we'll send you the artwork.

**02. CHOOSE YOUR STATEMENTS.**

**03. CHOOSE YOUR COLORS.**

**04. SPECIFY THE SIZES.**

**BESPOKE WALL GRAPHICS ALSO AVAILABLE. FOR MORE DETAILS ABOUT THIS SERVICE PLEASE CONTACT ESCAPE OR YOUR LOCAL SALES REPRESENTATIVE.**

# FUNCTIONAL.

Working in multiple planes of motion strengthens and conditions the whole body, from knees and ankles to shoulders and hips. The Escape Fitness range of functional training equipment provides the ideal starting point for this style of training, but also offers a more challenging workout for those who need it.

# CMT.™

The Core Momentum Trainer™, or CMT, is transforming the way people train and target the core. It's about developing deep core muscles that are difficult to reach with standard training methods. The lubricated Power Shot inside the CMT collides with the Power Core walls, and controlling this force is what kick-starts the core muscles into action.

REGISTERED DESIGN. PATENT PENDING.

DESIGN.

The Core Momentum Trainer is available in three weights – 2.2 lbs (green), 4.4 lbs (blue) and 8.8 lbs (red). The 4.4 lbs CMT is a good all round starting point for most people to get used to the CMT and its movement. Then they can drop down to the 2.2 lbs CMT to develop speed and fast movements, and up to the 8.8 lbs CMT to improve power.

STORAGE.

The RACK5 is the ideal place to keep Core Momentum Trainers tidy, safe and off the floor. The RACK5 stores up to 15 CMTs, so it is ideal whether they're used on the gym floor or in the studio for group training classes. See **page 36** to find out more.

TRAINING.

To maximize results, it's essential that any instructor looking to implement the CMT into sessions with members or clients learns how to effectively use the equipment. The CMT is unique and learning how it works is essential for effective application. The CMT Product Training Workshop provides everything trainers need to know about starting with the CMT. Online training available: see **page 228** to find out more.

CMT1	1 kg / 2.2 lbs Core Momentum Trainer – Green	\$115.00
CMT2	2 kg / 4.4 lbs Core Momentum Trainer – Blue	\$135.00
CMT4	4 kg / 8.8 lbs Core Momentum Trainer – Red	\$155.00

Weight refers to the internal Power Shot.

# THE EFFECTIVE CORE TOOL.

Don't let the inviting looks deceive you – the CMT hits your core like never before! It delivers a core-cardio workout to improve posture, muscle range and power. It also conditions specialist athletes to develop strength and movement needed for optimal performance in their chosen sport.

THE NEED FOR A CAPABLE, FUNCTIONING CORE.

The core is the body's hub, handling all of the forces going through it, from walking to striking a tennis ball. A strong core is therefore essential if the body is to manage forces and move freely.

A UNIQUE TOOL FOR CORE TRAINING AND MOVEMENT DEVELOPMENT.

Developed by a PhD physician specializing in the science of body movement and rehabilitation, the CMT is an incredibly precise way to target development in the core and wherever the user wants it the most.

THE HIIT SPECIALIST.

The CMT has proven itself as a superb tool for high intensity interval training. Moving the CMT fast and controlling the force in the Power Core takes huge effort. It's why even just a minute of full-on CMT exercise leaves most people shocked at the work they are putting in – exactly what you'd expect in a HIIT session. We're so pleased with the way it performs, we've integrated it alongside other functional training tools into our MOVE IT and BATTLE FIT group training programs. Both of these are all about performing at massive intensity and the CMT enables participants to push themselves beyond their perceived limits.

SPORTS-SPECIFIC TRAINING.

Due to the extreme accuracy with which the CMT targets specific muscles and movements, it has been taken up by coaches in a wide variety of sports, right up to professional level. Coaches are creating their own individualized exercises for clients who want to improve their performance in sports including football, baseball, cricket, soccer, golf, rugby, skiing, snowboarding, squash and tennis.

For more information and to watch the CMT videos, visit:

# PRESS, JUMP, FLIP, LIFT AND PULL.

For more information and to watch the TIYR video, visit:  
[www.escapefitness.com/us/new-products/tiyr](http://www.escapefitness.com/us/new-products/tiyr)

## THE TIYR.®

The TIYR is soft yet very strong, simple but innovative. It's also super tough, just like the real thing. The TIYR is a challenge for all users regardless of ability, thanks to four weight and size options.

**PATENT PENDING. REGISTERED DESIGN.**

### TECH SPEC.

The handles on the TIYR are used for lifting and carrying, and as attachment points for Battle Ropes. They need to be ultra-tough, which is why on the new, upgraded TIYR they are made from CORDURA® - a supremely tough fabric that has proved its ability to resist abrasion, tears and scuffs in everything from hiking boots to military equipment.

### EXPERT TIP.

This TIYR is unlike anything else on the market. Use it for bootcamps, PT sessions and to introduce strength training to a range of clients. Four weight options means all your members can get involved with the challenge.

### TRAINING.

The TIYR Product Training Workshop will ensure that coaches and trainers know how to introduce members to the TIYR safely and effectively.

Online training available: see **page 228** to find out more.

# GRIPR.®

The GRIPR is made to withstand the toughest of treatment by using micro-grade steel sand within a fully-sealed, double-stitched neoprene bag, so the steel sand won't leak. This means that it's perfect for dynamic exercises and can fit into the toughest of training routines.

REGISTERED  
DESIGN.

EXPERT TIP.

The GRIPR trains deep core muscles while adding an exciting and unpredictable element to workouts. Swing it, grab it, flip it and pass it – the GRIPR delivers fantastic versatility in a compact package.

STORAGE.

Training tools like the GRIPR need a home when not in use, and there's nothing better than the Ammo Box. There's lots of capacity to store away plenty of GRIPRs, along with other smaller items that always present a storage challenge and can lead to untidy gyms. See **page 150** for details.

TRAINING.

The GRIPR Product Training Workshop introduces the GRIPR, and includes key exercises and workouts to make the most of the GRIPR's unique characteristics.

Online training available: see **page 228** to find out more.

# TRAINING BAGS.

It's vital that your members are using the right bags for their workouts. Whether it's throwing and catching, lifting or swinging, our range of bags have their own unique set of characteristics that will meet the demands of every user, no matter how hard, or light, their personal needs are. From the fitness beginner through to the professional athlete, each bag has a place in a properly designed workout program.

## COMPARISON CHART.

WARRANTY	1 year	1 year	2 years
PRICE	From \$140.00	From \$88.00	From \$215.00

# HOW TO CHOOSE.

## SANDBAG.

The Sandbag features an unstable load which makes users work harder and activates the stabilizing muscles throughout the whole body. This bag is tough too – the robust material makes this the ideal tool for indoor and outdoor bootcamps. A unique feature of the Sandbag is the reinforced handles. Different colors determine the Sandbag weight.

## COREBAG.

This entry-level tool is a great introduction to basic exercise patterns. The stable weight and comfortable handles make it welcoming and non-intimidating. It can be used to bring exciting new twists to workouts. The Corebag comes with a soft outer so it can be dropped without damaging flooring or requiring protective matting. Different colors determine Corebag weight.

## FITNESS BULGARIAN BAG.

This is still a serious tool but the added colors take away the fear factor from working with such unfamiliar equipment and make it more welcoming for casual users. The vinyl construction is easy to keep clean and is ideal for high-frequency use in studios and on the gym floor. Different colors determine the Bulgarian Bag weight.

**PRODUCT TRAINING AVAILABLE.**

For more information and to order your online Product Training Workshop, visit:

[www.escapefitness.com/us/training](http://www.escapefitness.com/us/training)

## SANDBAG.

The Escape Sandbag is an incredibly versatile piece of equipment that delivers a full functional training experience. It is perfect for introducing lifting technique training and is ideal for small group training. Lift, carry, throw and slam – the instability in this bag makes it a functional challenge for any user.

**TECH SPEC.**

Our extra-tough, durable Sandbags feature double-stitched, reinforced grab handles, which allow the bag to be lifted, thrown and caught with one or two hands.

**STORAGE.**

The RACK5 (pictured) can store up to ten Sandbags, and keeps them safe and tidy. Alternatively, the Multi Bag Rack holds five Sandbags.

**TRAINING.**

The Sandbag Product Training Workshop will provide your personal trainers and instructors with the knowledge they need to effectively apply the Sandbag to PT sessions and group training classes.

Online training available: see **page 228** to find out more.

<b>SBAG10</b>	10 kg / 22 lbs	Sandbag – Green	<b>\$140.00</b>

**RACK5:** Size 73" x 23½" x 27½". Weight 165 lbs.

Bags sold separately.

# COREBAG®

With an updated design and brand new colors, this Escape Fitness staple has had a makeover. It's better than ever, with a soft outer covering and improved handle comfort and ergonomics for increased functional exercise opportunities.

REGISTERED  
DESIGN.

**EXPERT TIP.**  
Use the Corebag to introduce clients or members to compound lifts and strength training. Teach them the technique with a functional tool where they can progress through weights. The Corebag is also ideal for lunges, squats and presses in a functional circuit.

**STORAGE.**  
The RACK5 can store up to ten Corebags, and keeps them safe and tidy. Alternatively, the Multi Bag Rack (pictured) holds five Corebags.

**TRAINING.**  
The Corebag Product Training Workshop will provide your personal trainers and instructors with the knowledge they need to use the Corebag with members and clients. It will give them the opportunity to learn more about the exercises possible with the Corebag, and how to introduce them to members.  
Online training available: see **page 228** to find out more.

# FITNESS BULGARIAN BAG.®

Bright colors, a range of weight options and a huge selection of different applications – the Fitness Bulgarian Bag should feature in every serious functional training zone.

## TECH SPEC.

The Fitness Bulgarian Bag has a synthetic leather coating, making it easy to wipe down and keep clean. The various handles mean the bag can be used for a range of different exercises.

## STORAGE.

The ultimate storage solution for the Bulgarian Bag is the RACK5, which can hold ten Fitness Bulgarian Bags. Alternatively, the Multi Bag Rack (pictured) will provide a home for five bags.

## TRAINING.

The Bulgarian Bag Product Training Workshop is an essential choice for any instructor wanting to become an expert with the Bulgarian Bag. Learn the fundamental movements, how to apply these to workouts, and how to use and introduce the Bulgarian Bag to clients safely.

Online training available: see **page 228** to find out more.

<b>FVBBAG5V2</b>	5 kg / 11 lbs Fitness Bulgarian Bag – Green	<b>\$215.00</b>
<b>FVBBAG8V2</b>	8 kg / 17 lbs Fitness Bulgarian Bag – Blue	<b>\$225.00</b>

## MEDICINE BALLS.

Anyone who has fully embraced functional fitness knows that the medicine ball is a fantastic component of functional training programs. Escape has developed a range of balls with various features and styles to make sure that every gym user can get the most from everything that medballs have to offer. There are different sizes, weights and textures across the range – and specialist features such as the VERTMINI's compact size and the Multi Grip Medball's integrated handles.

**PRODUCT TRAINING AVAILABLE.**  
For more information and to order your online Product Training Workshop, visit:  
[www.escapefitness.com/training](http://www.escapefitness.com/training)

## COMPARISON CHART.

WARRANTY	1 year	1 year	1 year	1 year	1 year

## HOW TO CHOOSE.

### 01 VERTBALL™ 14.

The oversized design encourages users to adopt the correct posture when performing high-powered, high-velocity workouts. The VERTBALL is made from a colorful, forgiving material that is easy to wipe down and keep clean. The filling is made from rubber chips that ensure this ball won't deform over time, while the softer outer offers shock absorption. Different colors determine the VERTBALL weights.

### 02 VERTMINI™ 10.

By popular demand, we have added these five extra balls from 13.2-22 lbs to the VERTMINI range. The fast ball work that the VERTMINI was designed for is still what these are all about, but more weight means more challenge. These are compact compared to most medicine balls, but they are slightly larger than the 2.2-11 lbs versions. Different colors determine the VERTMINI weights.

### 03 VERTMINI™ 8.

The VERTMINI has many of the stand-out qualities of the VERTBALL, but in a more compact form. The first five balls in the range are slightly smaller than the five heavier balls, making them perfect for one-handed use in throwing and passing drills. Whether in teams or partner-based workouts, they are great for developing hand-eye coordination and can bring a real element of fun to workouts. Different colors determine the VERTMINI weights.

### 04 TOTAL GRIP MEDBALL.

This ball gives traditional medicine balls a whole new twist. The added textures and hand positions on the surface make it easy to handle when performing dynamic movements, while the unique surface formulation prolongs product life and ensures it stays looking fresher for longer. Various colors determine the Total Grip Medball weights.

### 05 MULTI GRIP MEDBALL.

The ergonomic handles are what these balls are all about – they're extremely comfortable and chunkier than standard models for improved grip. The handles also allow users to grip the balls in multiple positions, for new and exciting exercise movements. Weights are determined by different colored weight indicators.

**PLEASE NOTE:** Available while stocks last.

### 06 SLAMBALL SBX™.

As you can guess from the name, the Slamball invites users to perform explosive slams and powerful throws. Extra-tough construction means it takes some real punishment, while the dimpled surface is easy to grip. Just as important is an unstable interior material that forces users to work harder when performing slams. It's safe too, as it doesn't roll or bounce. Eye-catching colored numbers determine the weight of each ball.

To watch the VERTBALL instruction video, visit:  
[www.escapefitness.com/us/video](http://www.escapefitness.com/us/video)

## VERTBALL™

The VERTBALL has been specifically designed for throwing – to a partner or against a wall. Because it's oversized (with a diameter of 14") it works muscles from the feet right up to the hands, and develops coordination, balance, acceleration and deceleration.

### EXPERT TIP.

Use the VERTBALL in challenges against the clock. Introduce members to a CrossFit-style of training, inspired by the WOD. The wall ball exercise will develop members' shoulder, core, leg and glute strength, and give them a true challenge.

### STORAGE.

Store up to five VERTBALLs on the RACK5 to give your instructors and members quick access to the ball whenever they need it. The VERTBALL Rack (pictured) holds four VERTBALLs.

### TRAINING.

The Power Training with Medicine Balls Product Training Workshop provides in-depth detail about the VERTBALL and how to apply it to workouts. The workshop provides instructors and personal trainers with advanced medicine ball information.

Online training available: see **page 228** to find out more.

<b>VERT03</b>	3 kg / 6.6 lbs	Vertball – Green	<b>\$51.00</b>

### RACK SPECIFICATIONS.

**ESCVBRACK:** Size 57" x 12½" x 24½". Weight 43 lbs.

**RACK5:** Size 73" x 23½" x 27½". Weight 165 lbs.

**VERTBALLs sold separately.**

# VERTMINI.™

The VERTMINI is now more versatile than ever, with five extra weights added to the range. It's the ideal tool for getting into medball workouts, with compact sizes that make it perfect for partner exercises and mobility workouts. As well as its smaller size, an outer surface that's softer than your average medball means that users of all abilities will quickly feel confident with the VERTMINI.

**EXPERT TIP.**

The VERTMINI is perfect in team games to get members running and to inject fun into group training sessions. The sure-grip surface means that throwing and catching drills can be performed safely with maximum precision.

**STORAGE.**

Store the VERTMINI on the RACK5 (pictured). It can hold up to 20 VERTMINIs and keep them safe, tidy and easily accessible for both members and instructors. Alternatively, the Medicine Ball Racks hold five to ten VERTMINIs (see pages 30-31).

**TRAINING.**

The Power Training with Medicine Balls Product Training Workshop provides personal trainers and group instructors with the knowledge they need to apply medicine balls to exercises to develop power in the whole body.

Online training available: see page 228 to find out more.

# TOTAL GRIP MEDBALL.

A functional training classic. Medballs add weight to movement, and can help towards power development. The Escape Fitness Total Grip Medballs are bright and vibrant to get everyone involved.

REGISTERED  
DESIGN.

**DESIGN.**  
Oversized numbering allows for fast weight identification and the textured rubber surface offers improved grip. The hollow interior means these balls can safely be dropped or bounced against walls.

**STORAGE.**  
The RACK5 can store up to 20 Total Grip Medballs, and provides adjustable storage so you can organize it to fit your unique storage needs. The Medball Rack (pictured) holds five Total Grip Medballs.

**TRAINING.**  
The Power Training with Medicine Balls Product Training Workshop provides personal trainers and group instructors with the knowledge they need to apply medicine balls to exercises to develop power in the whole body.  
Online training available: see **page 228** to find out more.

# SLAMBALL SBX.™

The Escape Slamball has had a makeover and is now tougher than ever. The new Slamball SBX delivers even more durability, so it's perfect for heavy use in workouts to build maximum power and core strength.

**DESIGN.**

The combination of a 9" diameter and textured surface makes for great handling. Fight to control carefully-engineered instability and slam it as hard as you like: it won't bounce or roll, so users can really give it everything they've got.

**TECH SPEC.**

So what makes the new Slamball SBX so durable? It's the combination of SBX rubber over a reinforcing mesh fabrication that's stronger and 50% thicker than the previous model.

**STORAGE.**

The RACK5 (pictured) can store up to 20 Slamballs, and provides adjustable storage so you can organize it to fit your unique storage needs. Alternatively, the Medball Rack holds five to ten Slamballs (see pages 30-31).

# DEVELOP RAZOR-SHARP REACTIONS.

## REACTION PRO BOUNDER.

The Reaction Pro Bouncer offers a station for improving reactions, hand-eye coordination and proprioceptive awareness. These qualities all help in developing well-rounded athletes who are able to tackle physical challenges with confidence and success.

**LOWEST  
ANGLE: 33°**

**HIGHEST  
ANGLE: 60°**

### TECH SPEC.

The Reaction Pro Bouncer is made from mild steel, giving it a strong and stable base that's light enough to move around the gym. The mesh mat is made from strong polyethylene that will withstand repeated use, and is easy to clean.

### DESIGN.

The angle of the Reaction Pro Bouncer can be set at 33°, 45°, 55° and 60°. This range of angles makes it easy to create variety and properly develop hand-eye coordination, reaction times and accuracy.

### EXPERT TIP.

Incorporate the Reaction Pro Bouncer into circuit sessions, or develop programming using the Reaction Pro Bouncer as the central focus in the workout. For great results, use the VERTMINI or the Total Grip Medball with this product.

**RPB001** Reaction Pro Bouncer **\$1,100.00**

### SPECIFICATION.

Size 28" x 32" x 37" – frame only.

Size 37½" x 35½" – overall size laid at flattest position.

# RACK5.™

The RACK5 is a versatile storage option that will keep your facility tidy and your functional training equipment in peak condition when not in use. Multiple bumper options are included in the RACK5 box, and the ability to adapt the shelves on the RACK5 enables users to organize the shelves to their facility's unique needs. Do you have more Corebags than CMTs, or are you looking for a single storage station for a variety of functional training equipment? The RACK5 has you covered.

## RACK5 MAT ATTACHMENT.

The RACK5 Mat Attachment can be screwed on the back of the RACK5, allowing the Escape range of mats (with eyelets) to be stored. Sold separately.

**DESIGN.** The RACK5 is innovative and functional, providing a one-stop storage rack for a range of functional training equipment. Shelves can be arranged to suit the unique needs of gyms and studios to overcome storage challenges and clear up untidy floors.

**TECH SPEC.** The RACK5 is made from strong carbon steel for inherent strength, and painted with a powder coat for a scratch-resistant finish. A range of plastic bumpers and guards can be selected and attached to the shelves based on what type of equipment will be stored.

**TRAINING.** Maximize your members' opportunities to develop their functional, power, strength, mobility and core performance with RACK5 packs that have been designed specifically to propel clients towards exceptional physical performance (see **page 38**).

# PRODUCT PACKS.

Make the most of the versatility of the RACK5 and Escape's functional training tools with these popular ready-to-go packages. Each one is a performance-focused partnership of storage and training tools targeted at variations on the functional theme.

## 01 FUNCTIONAL PACK.

Prepare, engage, move and improve with multi-plane total body training that develops your functional fitness. From ridge rolling to kettlebell swings, versatility is built into the package. Choose your starting level and adapt your workouts by varying repetitions and weights to achieve your goals.

<b>ARACK5PFU</b> RACK5 Functional Pack	<b>\$2,150.00</b>
Pack includes:	
▪ RACK5	
▪ 3 x Ridge Rollers	
▪ 2 x 2 lbs and 4 lbs Total Grip Medballs	
▪ 2 lbs, 4 lbs and 9 lbs CMTs	
▪ 11 lbs and 22 lbs Corebags	
▪ 2 x 18 lbs, 24 lbs and 32 lbs Studio Kettlebells	

**RACK SPECIFICATIONS.**  
Size 73" x 23½" x 27½". Weight 165 lbs.

## 02 STRENGTH PACK.

Maximize your workout time with this strength-focused package. Get stronger and leaner as you progress through the Sandbag, Kettlebell and Medball weights, and include some CMT movements for mobility and core strength development. Keep your flexibility under management too with the Ridge Rollers.

<b>ARACK5PS</b> RACK5 Strength Pack	<b>\$2,700.00</b>
Pack includes:	
▪ RACK5	
▪ 3 x Ridge Rollers	
▪ 2 x 12 lbs and 14 lbs Multi Grip Medballs	
▪ 3 x 4 lbs CMTs	
▪ 22 lbs and 33 lbs Sandbags	
▪ 20 lbs, 25 lbs, 35 lbs and 45 lbs Rubber Kettlebells	

**RACK SPECIFICATIONS.**  
Size 73" x 23½" x 27½". Weight 165 lbs.

## 03 POWER PACK.

Unleash your explosive power and challenge the whole body with dynamic, total body exercises. Competition Pro Kettlebells and awesome Bulgarian Bags bring their own special challenge to the pack. Our heaviest CMTs and Slamballs complete a package targeted at increasing speed and power output.

<b>ARACK5PP</b> RACK5 Power Pack	<b>\$3,090.00</b>
Pack includes:	
▪ RACK5	
▪ 3 x Ridge Rollers	
▪ 2 x 33 lbs and 44 lbs Slamball SBX	
▪ 18 lbs, 26.5 lbs, 35 lbs and 44 lbs GRIPRs	
▪ 26 lbs and 37 lbs Fitness Bulgarian Bags	
▪ 26 lbs, 35 lbs, 44 lbs and 53 lbs Competition Pro Kettlebells	

**RACK SPECIFICATIONS.**  
Size 73" x 23½" x 27½". Weight 165 lbs.

## 04 MOBILITY PACK.

A mobility session before or after a main workout helps to maintain suppleness and flexibility. Improve range of motion and joint control to enhance performance and get greater results in your training. Compact VERTMINIs, CMTs and two types of roller make this a great center for mobility workouts.

<b>ARACK5PM</b> RACK5 Mobility Pack	<b>\$2,070.00</b>
Pack includes:	
▪ RACK5 and Mat Attachment	
▪ 3 x Ridge Rollers	
▪ 3 x Ultraflex Foam Rollers	
▪ 6 x Core Mats	
▪ 2 x 2 lbs and 4 lbs VERTMINIs	
▪ 2 lbs, 4 lbs and 9 lbs CMTs	
▪ 1 x 25.5" DuraBall	

**RACK SPECIFICATIONS.**  
Size 73" x 23½" x 27½". Weight 165 lbs.

## 05 FITNESS PACK.

Maximum versatility is the objective of this pack, which has been specially created for unsupervised workouts. With the Escape Your Limits App as their guide, users can work through a series of exercises and workouts to make the most of the versatility from this selection of six training tools.

<b>ARACK5PFI</b> RACK5 Fitness Pack	<b>\$2,280.00</b>
Pack includes:	
▪ RACK5 and Mat Attachment	
▪ 3 x Ridge Rollers	
▪ 6 x Core Mats	
▪ 2 x 2 lbs and 9 lbs Total Grip Medballs	
▪ 2 x 4 lbs, 9 lbs and 13 lbs GRIPRs	
▪ 11 lbs and 22 lbs Corebags	
▪ 2 x 16 lbs, 24 lbs and 32 lbs Studio Kettlebells	

**RACK SPECIFICATIONS.**  
Size 73" x 23½" x 27½". Weight 165 lbs.

**ATHLETIC.**

Developing power, speed and agility requires precision training techniques and unrivalled determination. With the Escape Fitness range of athletic training equipment, personal trainers, coaches and athletes can achieve superb results, regardless of whether they're training for competition, or just starting their journey to faster and more precise movements.

## PLYO360.™

Take plyometric training to a new level with multi-planar bounding on the PLYO360. The octagonal shape opens up opportunities for box jump patterns in frontal, lateral and transverse planes. Adding to the challenge are target markings as part of the top surface design, giving users precise areas to aim for. Train on it and around it, solo or in partner and team exercises, or whenever there's a need for extra-dynamic plyo workouts.

**REGISTERED DESIGN.** **REGISTERED PATENT.**

### TECH SPEC.

Cleverly engineered top and bottom surfaces are made of anti-slip material for performance and stability. Targets are printed using a proprietary method that's especially long lasting. For more durability, a tough outer material is tightly fitted over a firm foam filling.

### DESIGN.

The patented Velcro flaps lock away when not in use, keeping everything neat and tidy. PTs can instruct users to land their hands or feet on targets on the top surface for extra challenge.

### EXPERT TIP.

Make the most of the three different sizes of PLYO360. Each is progressively taller than the other and can be connected with Velcro in any combination. It takes just seconds to create multiple height configurations to match different users' abilities.

<b>PLY3630</b>	Plyosoft Box 360 300mm/12" – Green	<b>\$710.00</b>

# PLYOSOFT BOX.®

Our variable-height Plyosoft Boxes are perfect for power development and performance. They're inviting and safe; soft to protect against injuries and featuring an anti-slip top and base.

**REGISTERED DESIGN.** **REGISTERED PATENT.**

## DESIGN.

The Plyosoft Box set is designed to be safe, and to give users confidence when performing plyometric training. Its soft design minimizes the risk of injury, and strong patented Velcro fixing straps keep boxes locked in place.

## FLOORING.

Plyometric training should be performed on appropriate flooring to absorb some of the impact of the exercises on members' joints. See page 215 to find out more about flooring options.

## TRAINING.

It is crucial that instructors fully understand plyometrics before introducing it into training sessions. The Plyometric Training Workshop provides key education and tips for introducing plyometric training effectively.

Online training available: see page 228 to find out more.

# MULTIPLYO®

We've taken the great idea of a 3-in-1 plyo box and given it the Escape treatment. Made to the same dimensions as the boxes used for CrossFit, this great space-saving box is the perfect tool to introduce beginners to plyometrics, while still providing seasoned CrossFitters with the challenge they need.

**REGISTERED  
DESIGN.** **PATENT  
PENDING.**

## TECH SPEC.

An easy-to-clean GTEX cover is securely heat welded over a foam core to avoid creasing or loose material. It's fastened with Velcro, an upgrade from the zip we used previously to provide extra durability. Anti-slip landing zones are on all six sides, and it's designed so that it won't move when in use.

## FLOORING.

Plyometric training should be performed on appropriate flooring to absorb some of the impact of the exercises on members' joints. See [page 215](#) to find out more about flooring options.

## TRAINING.

It is crucial for instructors to fully understand plyometrics before introducing it into training sessions due to the intensity and nature of plyometric training. The Plyometric Training Workshop provides key education to introduce plyometric training effectively.

Online training available: see [page 228](#) to find out more.

**MPLY001** Multiplyo **\$1,299.00**

# PUSH YOUR LIMITS TO THE NEXT LEVEL.

For more information and to watch the Quad Sled in action on the Speed Track video, visit:

[www.escapefitness.com/new-products/us/speed-track](http://www.escapefitness.com/new-products/us/speed-track)

## QUAD SLED.™

A simple, brutal workout tool that builds core and leg power. Stylish and compact, our sled features two moveable drive posts which can be positioned at either end of the sled and the low drive bar increases the challenge. The drag zone has eyelets for attaching the Escape Speed Resistor or ropes to pull the sled.

### TECH SPEC.

Made in Britain using carbon steel for a strong, high-quality fitness product.

### EXPERT TIP.

This is perfect for CrossFit-style facilities, and those who want to add dynamism to Tabata or circuit sessions.

### FLOORING.

Maximize Quad Sled performance with specialist flooring. Choose the Speed Track or Portable Speed Track (see page 221), or Shockturf (see page 218) for details.

**QSLED** Quad Sled **\$800.00**

Please ensure the sled is used on appropriate flooring to avoid damage to the sled or floor surface. Ideally this should be the Speed Track, Shockturf, or another suitable artificial turf surface.

### SPECIFICATION.

Size 38" x 29" x 39". Weight 88 lbs.

**Plates not included.**

# PRECISION, SPEED, FANCY FOOTWORK.

## SPEED TRAINING.

Allow your members to realize their full potential. Incorporate our range of SAQ products into your facility for developing speed and agility. Elite athletes will be able to use this challenging equipment to achieve unimaginable personal bests. All members will find huge benefits in developing fast twitch muscle fibers, taking their training to the next level.

### 01. SPEED LADDER.

Exercises and workouts now feature pin-point precision. Squat, jump and press-up your way down the ladder for a total body workout. It comes with its own bag so you can easily take it anywhere.

### 02. AGILITY GRID.

The Agility Grid provides a destination for cardio, agility and speed sessions. Durable linking clips allow endless layouts and add dynamism to any workout or training session.

### 03. LATERAL ENDURANCE HURDLE.

These hurdles are made from soft memory foam and are perfect for high-intensity speed and agility drills. They feature a water-resistant and wipe clean surface with a carefully counterbalanced base for stability.

### 04. ADJUSTABLE HURDLE.

The Adjustable Hurdles, with two height options, allow you to progress and regress exercises to supercharge sessions. Go low for fast-paced drills and increase the height to work on power and precision.

### 05. LATERAL SPEED RESISTOR.

The ultimate tool for developing leg power and improving joint stability for increased explosiveness. The quick-fit ankle straps are joined together by a robust resistance tube with a nylon sleeve.

### 06. REACTION BALL.

A specialist ball for improving reactions, this features a non-uniform design to keep users on their toes. Made from hard-wearing rubber, it also helps improve hand-eye coordination and depth perception.

### 07. SPEED CONES.

Perfect for speed development and marking targets. These cones are portable, hard-wearing and super stable. Large number markings allow trainers to direct users to specific cones to improve reaction times.

### 08. SPEED DISCS.

High visibility discs make it easy to define space and create multiple layouts for a variety of functional drills. Set the discs out in lanes, squares, zigzags or as targets on the ground.

# ATTACHMENT VEST.

Develop explosive power for a competitive edge and improve agility by adding resistance to your speed training.

- DESIGN.**  
A great comfort-fit design thanks to lightweight, soft and spongy neoprene material. With Velcro fastening straps, one size fits all.
- TECH SPEC.**  
17 anchor points all across the body offer the opportunity to add resistance to bodyweight movements, or to attach to cable machines.
- EXPERT TIP.**  
Use in conjunction with the Speed Resistor or link up to dual adjustable pulleys.

EBOX-AV   Attachment Vest   \$120.00

# SPEED RESISTOR.

- TECH SPEC.**  
Tough nylon outer sleeves protect the two parallel vulcanized resistance tubes and prevent damage.
- DESIGN.**  
The adjustable belt is stitched and folded to form layers of tough webbing to absorb even the most explosive movements.
- EXPERT TIP.**  
The Speed Resistor is a key tool for developing speed and power. Attach to the Quad Sled for pulling workouts to develop power.

EST-SR   Speed Resistor   \$78.00

**SPECIFICATION.**  
Resistance tubes are 94" long and can stretch up to 24ft, providing 12.7 lbs of resistance at 100% elongation and 20 lbs at 200%. Belt attachment can fit up to a 39" waist.

**COMFORTABLE.**  
Breathable mesh on the back of the vest to keep users cool.

**SECURE.**  
Adjustable Velcro straps, one size fits all.

**VERSATILE.**  
Attachment loops front and back for speed resistors, parachutes and resistance bands.

**EASY TRANSITIONS.**  
Fast clips for quick changes.

ATHLETIC.

## RESISTANCE PARACHUTE.

Professional athletes know all about training with a parachute but it's a tool that can be used by everyone. Once you've finished developing explosive power you can pack up the parachute and the step-in belt in the custom-designed carry bag.

### DESIGN.

The belt is adjustable, with the parachute detachable so that it can be removed and reattached quickly during workouts.

### STORAGE.

The Resistance Parachute comes in its own handy carry bag for trainers on the go, or to neatly store it in clubs and athletic facilities.

### EXPERT TIP.

Use the Resistance Parachute to develop power and speed. Alternate with exercises like box jumps for an all-round athletic workout.

EST-RP	Resistance Parachute	\$40.00

# BATTLE ROPE.

Battle Rope training is one of the most underutilized exercises in fitness training. It's a tough challenge that raises the heart rate, and develops core, forearm and grip strength.

**UNCOVERED.**

**COVERED.**

**TECH SPEC.**

Made in Britain, these high-quality ropes can withstand the toughest punishment. They have our unique flex treatment, so they move easily during use and provide a great upper body workout. The Covered Battle Rope provides extra durability, ideal for busy gyms and outdoor sessions.

**FUNCTIONAL FRAMES.**

Attaching the Battle Rope to your Octagon functional frame gives users an exercise that really raises the heart rate. It's a good complement to the strength and power exercises that other Octagon frame features support; great for varied small group workouts.

**TRAINING.**

The Battle Rope Product Training Workshop provides trainers with the knowledge they need to successfully introduce battling into their sessions. There is a vast range of exercises to be used with the Battle Rope, so this training is essential for instructors looking to excel. Online training available: see **page 228** to find out more.

<b>BR3210</b>	1 1/4" x 33' Battle Rope	<b>\$290.00</b>
<b>BR3210C</b>	1 1/4" x 33' Covered Battle Rope	<b>\$469.00</b>
<b>BR5010</b>	2" x 33' Battle Rope	<b>\$480.00</b>

**SPECIFICATIONS.**

Size approx 33ft length. 1 1/4": Weight approx 11 lbs. 2": Weight approx 22 lbs. Rope diameter subject to -15% shrinkage during use.

## POWER BANDS.

Looking for a little help to get you started with bodyweight training? Power Bands can support members when performing pull-ups and ab rollouts, and add resistance to squats and other exercises.

### EXPERT TIP.

Start members off with the red Power Band, which offers the most support, and progress through to blue, then green. The different resistance options provide the opportunity to progress and regress as required, producing measurable results for the end user.

### TECH SPEC.

These Power Bands come in three different resistance levels and are constructed in layers to prevent breakage. Made from premium quality latex rubber, they are really tough and support any workout.

### FUNCTIONAL FRAMES.

Attach the Power Bands to the Octagon or Octagon BOX frames to support your members who really want to improve their strength training with advanced moves like pull-ups or dips.

<b>WBANDS</b>	Power Band 01 – Green	<b>\$20.50</b>
<b>WBANDM</b>	Power Band 02 – Blue	<b>\$31.00</b>
<b>WBANDL</b>	Power Band 03 – Red	<b>\$41.00</b>

### SPECIFICATIONS.

**WBANDS:** Width 1¼". Length 40". Resistance 24 lbs-80 lbs.

**WBANDM:** Width 1¾". Length 40". Resistance 50 lbs-120 lbs.

**WBANDL:** Width 2½". Length 40". Resistance 60 lbs-150 lbs.

## NUTFIELD PRIORY.

### BACKGROUND.

Nutfield Priory Hotel and Spa is one of a select group of luxurious country house properties in the Hand Picked Hotels chain. Guests staying at Nutfield Priory enjoy four star facilities in the neo-Gothic ambience of a Victorian mansion house. With such an extraordinary setting, the team have to ensure every facility matches up.

### THE PROJECT.

In their drive to continually improve facilities, the club manager contacted Escape to work through ways of making better use of their available space. It was felt that one of the squash courts was being under-used and there was an opportunity to revitalize the space. What followed was a top-to-bottom refit to give guests and members a vibrant new functional training environment.

### RESULTS.

Escape set to work on a full, floor-to-ceiling solution, installing new racks, new equipment and motivational wall graphics to reinforce the high energy look and feel. It is not just the refit that is benefiting Nutfield Priory Hotel customers; the personal trainers have been fully trained by Escape, so every trainer can provide the very best training on all of the equipment.

### WHY ESCAPE?

The new functional training area gives clients another exceptional facility. What had been a low-use part of the club is now a hub of activity. It's a genuine one-of-a-kind, and the unique design style makes it a great fit for Hand Picked Hotels.

**Claire Milsom, Health Club Operations Manager, Nutfield Priory Hotel & Spa.**

# STRENGTH.

Whether members are only just discovering what they can gain from strength training, or if they're seasoned lifters ready for the next challenge, this strength range stands out from the rest. Its functionality, design and performance sets it apart, and helps your members achieve their goals. Dumbbells, lifting bars, kettlebells and plates provide everything you need for a big lifting experience.

# DUMBBELLS.

Our Urethane Dumbbells have undergone rigorous testing and have been awarded TÜV SÜD Certification to prove they are among the best in class. TÜV SÜD Certification is awarded by the TÜV SÜD Group – one of the largest independent certification organizations in the world. Considerable time and money have been invested by both Escape and TÜV SÜD Group to develop a testing program that has created a new benchmark for dumbbell quality. Clubs can be confident that their investments will be manufactured to the highest standards in the industry, ensuring long-lasting quality and safety.

# HOW TO CHOOSE.

## 02 URETHANE DUMBBELLS.

Made from high-quality urethane, these dumbbells are hard-wearing and are guaranteed to stay looking good for longer.

## 01 SBX™ DUMBBELLS.

SBX is a material unique to Escape that performs better than natural rubber – it's very durable and tough. The urethane end plate uses our Delta-Lock fixing system, which means they'll never work loose.

## 03 EDGE® URETHANE DUMBBELLS.

Our Edge Urethane range is manufactured to the highest standard. The dumbbells feature permanently engraved numbers on their heads and an anti-roll design.

## 04 CLASSIC URETHANE DUMBBELLS.

These molded urethane dumbbells are our most cost-effective solution. This is a classic 2-20 lbs dumbbell set that's ideal for PT zones and free weight areas.

STRENGTH.

# URETHANE DUMBBELLS.

Our Urethane Dumbbells have been designed with large numbering so users can quickly select the correct weight. Made out of high-quality urethane, the dumbbells have single-piece heads with precision machined bores.

STRENGTH.

Delta-Lock (Patented) is a uniquely engineered three-stage locking system that ensures the head and end plate remain permanently attached to the handle.

**TECH SPEC.**

Made from high quality urethane rubber, these dumbbells are made with long-term performance in mind. The smooth finish makes urethane the perfect material for hand weights; they're kind to gym floors if dropped.

**EXPERT TIP.**

The perfect introduction to strength training, our Urethane Dumbbells are a great choice for fundamental lifts. The clear numbering makes it easy to increase or decrease the load quickly in PT sessions.

**DESIGN.**

Our Delta-Lock system ensures our free weights are of the best possible quality. They feature an end plate retaining bolt, a large diameter lock nut and a machined steel head locator, making them durable no matter how tough the workout.

# SBX™ DUMBBELLS.

SBX rubber has been designed specifically for use in weighted gym equipment. A purer form of rubber, manufactured to ISO9000 standards, ensures that these dumbbells are hard-wearing and impact absorbing, prolonging their performance for a longer life.

**DL** Delta-Lock (Patented) is a uniquely engineered three-stage locking system that ensures the head and end plate remain permanently attached to the handle.

**TECH SPEC.**  
SBX rubber has been developed exclusively for Escape and is durable, impact absorbing and resistant to scratches. Therefore these dumbbells will stay looking great for longer.

**DESIGN.**  
Our Delta-Lock system ensures our free weights are of the best possible quality. They feature an end plate retaining bolt, a large diameter lock nut and a machined steel head locator, making them durable no matter how tough the workout.

**CERTIFICATION.**  
Our SBX Dumbbell range carries TÜV SÜD Certification.

# CROSS HUB STORAGE STATION.

The Cross Hub is the ideal storage solution for strength gyms or heavy free weight zones. Ideal for storing dumbbells, kettlebells, VERTBALLs and other strength equipment, this storage rack makes a strong statement and means business.

REGISTERED  
DESIGN.

- TECH SPEC.**  
Made from S275 carbon steel providing utmost strength and reliability. The perfect height to make re-racking strength equipment quick and stress-free.
- STORAGE.**  
The Cross Hub is specifically designed for Escape Octagon Dumbbells, but is also ideal for storing kettlebells, VERTBALLs, boxing equipment, rollers, GRIPRs and other strength training equipment.
- EXPERT TIP.**  
Connect several Cross Hub racks together to create a modular storage system that's bespoke and designed to meet your facility's needs. The Cross Hub allows you to build a strength storage solution that's totally unique to you.

<b>ESC29RACK</b>	Cross Hub 3 Shelf Rack Floor Mounted	<b>\$1,325.00</b>
<b>ESC31RACK</b>	Cross Hub 3 Shelf Rack Freestanding Feet	<b>\$1,670.00</b>
<b>ORF001</b>	Octagon Anti-Slip Rubber Foot (Pair)	<b>\$17.50</b>

**SPECIFICATION.**  
**ESC29RACK:** Size 47¾" x 24" x 82". Weight 357 lbs.  
**ESC31RACK:** Size 47¾" x 41¼" x 86". Weight 416.6 lbs.

# CROSS HUB.

The Cross Hub can be bolted down flush against a wall to minimize wasted space and maximize working areas. The patent pending shelf system allows for shelves to be positioned one way to store Urethane or Octagon Dumbbells, or flipped over for a flat base to hold VERTBALLs, kettlebells, GRIPRs, boxing kit, or other strength or functional training equipment.

**HORIZONTAL:** ideal for storing other types of training equipment, including medballs and kettlebells.

**ANGLED:** perfect for dumbbells, because the angle makes it easier for users to quickly access what they need.

- EXAMPLE SHOWS:**
- 5 x VERTBALLs
  - 22 lbs-66 lbs Urethane Dumbbells (11 pairs)
  - Cross Hub

**TWO-POSITION SHELVING.**  
Each Cross Hub shelf can be independently orientated into two different positions, depending on the equipment being stored.

# CROSS HUB - FREESTANDING.

The addition of laser-cut Octagon Feet allows the Cross Hub to easily freestand on any surface in any position around the club.

**RUBBER OCTAGON FEET.**  
These optional rubber feet are recommended when the Cross Hub is used freestanding rather than bolted to the floor. They are especially ideal for flooring that requires protection, including wooden floors.

- EXAMPLE SHOWS:**
- 6 x Competition Pro Kettlebells
  - 3 x VERTBALLs
  - 5.5 lbs-66 lbs Octagon Dumbbells (12 pairs)
  - Freestanding Cross Hub with Feet

Rubber Feet not included.

STRENGTH.

# EDGE® URETHANE DUMBBELLS AND XRACK®

The Edge Urethane Dumbbell and XRACK set is manufactured to an extremely high standard and comes with a number of benefits that contribute to making it the perfect dumbbell set-up for any fast-paced free weight area.

**PLEASE NOTE.**  
Available while stocks last.

**TECH SPEC.**  
An anti-roll design and urethane head make this dumbbell the perfect combination of beauty and brawn. It will get new people trying free weights, and is tough enough to withstand being dropped. Plus, the flat base is ideal for press-ups and renegade rows.

**DESIGN.**  
Permanently engraved logos and numbering ensure weights are easy to select. An attractive red design and comfortable handle mean that clients new to free weight training feel comfortable and excited to try it out. A light dumbbell solution that excites members and offers your club a stand-out training solution.

**STORAGE.**  
The Pearl Silver XRACK is as stylish and eye-catching as it is functional and makes a real statement in the club.

AHSU50	3-20 lbs	Edge Urethane Dumbbell Set	\$1,100.00
AHSU1R	3-20 lbs	Edge Urethane Dumbbell Set (10 Pairs and XRACK)	\$1,900.00

**XRACK SPECIFICATIONS.**  
Size 53" x 25" x 38". Weight 94 lbs. Silver.

# CLASSIC URETHANE DUMBBELL SET.

The perfect addition to any studio, these stylish Classic Urethane Dumbbells have been manufactured to look great while still being tough.

**TECH SPEC.**  
This dumbbell set is made from urethane, making it tough, resilient and kind to gym floors. The comfortable handle is perfect for prolonged sessions using the weights and clients' hands won't take any of the impact from their hard work.

**DESIGN.**  
This may be our most affordable dumbbell set, but it provides everything you need to add weight to bodyweight exercises and introduce strength training. The cool gray color complements any facility and large white numbering makes for quick weight identification.

**STORAGE.**  
Partnering Classic Urethane Dumbbells with the XRACK brings some style to free weight storage. As a rack specially designed for our dumbbells it's also a great way to keep pairs together, ready for the next time a member wants to get lifting.

APUD50	2-20 lbs	Classic Urethane Dumbbell Set	\$1,015.00
APUD1X	2-20 lbs	Classic Urethane Dumbbell Set (10 Pairs and XRack)	\$1,925.00
ESCPAD	Protective Rubber Feet for Racks		\$5.50

**RACK SPECIFICATIONS.**  
Size 53" x 25" x 38". Weight 94 lbs. Silver.

## SBX™ BARBELL SET.

Made from SBX rubber, our SBX Barbells are hard-wearing and impact-absorbing. SBX rubber has been designed for use in weighted gym equipment and helps to prolong performance for a longer life. The easy grip handles ensure a comfortable grip, while the clear numbering makes the SBX Barbell Set easy to use in a PT session.

### TECH SPEC.

SBX rubber is a unique mix that's exclusive to Escape: it's a tough material that's also affordable. It's strong, but kind on gym floors, which makes it the ideal material for use in free weights.

### EXPERT TIP.

The SBX Barbell is great for introducing compound lifts and for general strength training. Fixed weights are perfect for PT sessions, as no time is spent changing plates to achieve a desired weight.

### CERTIFICATION.

Our SBX Barbell Sets carry TÜV SÜD Certification.

<b>ACTBB1001R</b>	20-40 lbs Barbell Set and ESC15RACK	<b>\$1,660.00</b>
<b>ACTBB1002R</b>	60-100 lbs Barbell Set and ESC15RACK	<b>\$2,250.00</b>
<b>ACTBB1004R</b>	20-110 lbs Barbell Set and ESC9RACK	<b>\$3,455.00</b>

<b>ESCPAD</b>	Rubber Protector Feet for Racks	<b>\$5.50</b>
---------------	---------------------------------	---------------

# HOW TO CHOOSE.

## 01 COMPETITION PRO KETTLEBELLS 2.0.

The ultimate choice for clubs and members who take their lifting seriously. A uniform size and industry standard color coding meet competition standards. Cast stainless steel handles won't rust, and extra-tough powder coating with engraved weight indicators ensure life-long visibility. A new hollow core delivers more even weight distribution to maximize performance.

## 02 CAST IRON KETTLEBELLS

A gym favorite that will never go out of fashion. Classic kettlebell style and functionality in a cast iron, powder coated, flat bottomed package. The formula of smaller bells for smaller weights makes them ideal as an all-rounder, but with the toughness demanded for heavy use.

## 03 RUBBER KETTLEBELLS.

The high-performing and stylish Rubber Kettlebells are suitable for everyone. They feature a textured surface so the bell can be held and utilized for different exercises. Stainless steel handles offer a comfortable grip so you can work out harder for longer.

## 04 STUDIO KETTLEBELLS.

These Studio Kettlebells are the perfect choice for introducing kettlebell group workouts to your studio class timetables. Bright colors are inviting and allow for easy weight identification. Weights starting at 8 lbs mean that even novice fitness members can get involved. A vinyl dip covering ensures the cast iron bell is kind to studio floors and keeps equipment in top condition.

See **page 175** for more details.

STRENGTH.

# CAST IRON KETTLEBELLS.

The classic choice for all-round performance with universal appeal. These take a traditional approach of getting larger as they get heavier, giving members who prefer a lighter bell a smaller size to deal with. Powder coated cast iron with color-coded weight indicators adds up to a kettlebell of a quality at this more affordable price point.

**TECH SPEC.**  
Powder-coated with permanently-engraved weight indicators and color-coded bands for fast identification. A flat base provides stability for storage, and enables them to be used for body weight exercises on the bell.

**STORAGE.**  
There are a range of storage options for the Cast Iron Kettlebells. The Cross Hub Storage Station provides the ideal place to keep the kettlebells off the floor and in top condition. Having dedicated storage for products is also vital for members' safety and provides an all-round positive fitness experience.

**TRAINING.**  
Be sure to get the very best from your kettlebells with the Kettlebell Instructor Training Course, available in-club and online. This provides trainers and coaches with all the knowledge they need to properly implement and teach key kettlebell exercises like the swing, snatch and Turkish get-up. It also includes workouts and training programs to implement in your club. See **page 229** for details.

## TEXAS TECH UNIVERSITY.

**BACKGROUND.**  
Texas Tech University wanted to repurpose two racquetball courts from a space that serviced up to four people at a time into a dynamic 1,600-square-foot workout space for 30 or more. Just as importantly, they wanted to add increasingly-popular functional training to their programming in order to remain a relevant and attractive fitness destination for students and staff alike.

**THE PROJECT.**  
The Raider Escape Room, as the space is known, is geared toward small group functional training, personal training and sports conditioning. It features an Escape 15-foot Octagon HTS frame, and equipment including Plyosoft Boxes, Corebags, Bulgarian Bags, Core Momentum Trainers and Kettlebells. There's also a Speed Track for sprints and use with Escape's Quad Sled and TIYR.

**RESULTS.**  
The Escape design team brought high visual impact to the Raider Escape Room by creating a colorful, dynamic place where students and staff would want to spend time. Decked in Texas Tech's official red, black and white colors, it's a cool, cutting edge functional fitness facility that has added an unparalleled training experience to the university's recreation center.

**WHY ESCAPE?**  
We now have a unique space that works for personal training and small group training that's fun and engaging, while offering students the freedom to train without disrupting weight or cardio room users.

**PeeWee Roberson, Rec Center Director, Texas Tech University.**

# COMPETITION PRO KETTLEBELLS 2.0.

The Competition Pro Kettlebell is designed and engineered as the perfect choice for the most demanding clubs and members. A uniform size across the range and industry standard color coding meet competition standards, while non-competitors will also find that consistent bell sizes make it easier to progress through the weights. Now it's upgraded with more even weight distribution, extra-tough powder coating and engraved weight indicators for life-long visibility.

**TECH SPEC.**

Cast stainless steel handles won't rust. The wide, flat base is perfect for renegade rows and push-ups. A new manufacturing process has created a hollow core design that enables more of the weight to be distributed closer to the handle rather than the base, so it's easier to swing the bell around the body and also places less stress on the wrists.

**STORAGE.**

Dedicated equipment storage is vital for member safety and contributes to a feeling of quality in a club. Storage options for the Competition Pro Kettlebells 2.0 like the Kettlebell Rack (see **page 81**) and the Cross Hub (pictured) keep the kettlebells off the floor and in top condition.

**TRAINING.**

Be sure to get the very best from your kettlebells with the Kettlebell Instructor Training Course. This provides trainers and coaches with all the knowledge they need to properly implement and teach key kettlebell exercises like the swing, snatch and Turkish get-up. It also includes workouts and training programs to implement in your club. See **page 229** for details.

# RUBBER KETTLEBELLS.

Our Rubber Kettlebells feature cast stainless steel handles so they're comfortable, strong and won't chip or rust.

REGISTERED  
PATENT.

REGISTERED  
DESIGN.

TECH SPEC.

These kettlebells are a classic choice. The comfortable handles ensure they are easy-to-use and kind to members' hands. Just as importantly, the textured bell surface is especially easy to grip.

TRAINING.

Be sure to get the very best from your kettlebells with the Kettlebell Instructor Training Course. This provides trainers and coaches with all the knowledge they need to properly implement and teach key kettlebell exercises like the swing, snatch and Turkish get-up. It also includes workouts and training programs to implement in your club. See page 229 for details.

DESIGN.

Permanently engraved, oversized numbering that won't wear off. This helps for fast weight identification and selection, and the dimpled surface of the bell provides a sure-grip when performing goblet squats or presses.

# HOW TO CHOOSE.

## 01 ELITE URETHANE BUMPER PLATES.

Outstanding durability, tight weight tolerances and low-bounce performance set these plates apart for the ultimate Olympic lifting experience.

STRENGTH.

## 02 ELITE COMPETITION BUMPER PLATES.

The ideal entry point into lifting to competition standards, these rubber plates bring IWF specifications to lifting areas.

## 03 CROSS TRAINING BUMPER PLATES.

Features like extra bounce and recessed finger grips make these ideal for heavy use areas including specialist strength stations and cross training zones.

## 04 CROSS GRIP OLYMPIC PLATES.

Our tough and functional plates feature multi-use ergonomic handles and also have a tight tolerance band for weight accuracy.

## 05 SBX™ OLYMPIC PLATES.

Made from high-quality rubber, specially formulated for use in weighted gym equipment.

# THE ELITE LIFTER'S PLATE OF CHOICE.

**FRACTIONAL PLATES.**

The perfect partner for your Elite Urethane Bumper Plates or Elite Competition Bumper Plates. These Fractional Plates are ideal for beginners and intermediate users steadily progressing their lifts, and for elite lifters pushing their personal best a fraction higher. Available in 2.5 lbs and 5 lbs, they fit tight against bumper plates for a snug fit and are a must-have for Olympic lifting areas or athletic training spaces.

## ELITE URETHANE BUMPER PLATES.

For the best possible Olympic lifting experience, turn to Escape's Elite plates. From the outstanding durability and low bounce that only urethane can guarantee, to especially tight weight tolerances, these deliver on every lift.

**TECH SPEC.**

Hard-wearing urethane over a steel core shrugs off impacts to stay looking new for longer, is low on odor, won't mark flooring and has less bounce than rubber plates. The reduced width means big lifters can fit more plates on their bar, while precise tolerances to within 2% of the stated weight adds to the performance.

**DESIGN.**

Lifting the plates should be a challenge when they are on a bar: not when you're setting up your lifts. That's why we've included a grippable ridge and finger castellations to make them easy to pick up and handle, whether vertical or horizontal. Bright IWF-compliant colors and contrasting weight indicators add to the usability.

**STORAGE.**

Most Octagon frames can be supplied with plate storage facilities. Alternatively, the Toast Rack is a great freestanding and portable way to store your Elite Urethane Bumper Plates.

APUBP10	10 lbs	Elite Urethane Bumper Plate – Black (Technique Only)	\$100.00

---------	--	---------

STRENGTH.

# ELITE COMPETITION BUMPER PLATES.

These rubber plates are a great entry point into lifting to competition standards. Made from rubber over a steel core, they meet IWF specification dimensions and colors to bring an Olympic experience into a club's lifting area.

**TECH SPEC.**

These plates have been drop tested 4,000 times, so you can be sure they will stand up to even the heaviest use in your facility. Recessed finger grips help when lifting plates off the floor or the bar.

**FLOORING.**

These Elite Competition Bumper Plates should be used on suitable flooring. Choose the Lift Zone (see page 96) or the Weight Layer Tile or Flexi-Tuf for the very best performance.

See page 215 to find out more about flooring options.

**TRAINING.**

The Olympic Weightlifting Instructor Course will provide your team of instructors or personal trainers with all the knowledge they need to effectively and safely implement this type of exercise into training sessions. The course covers the snatch, the clean and the jerk, and progressions to build up to these lifts.

See page 229 to find out more.

# CARBON WORLD HEALTH.

**BACKGROUND.**

Created by a physician, spa director and elite training professional, Carbon World Health in Madison, Wisconsin, takes a holistic approach to fitness, health and beauty. Their mission is to create healthy minds and bodies, and therefore promote happiness in the lives of their clients. It's an approach that is bringing more people the opportunity to access the kind of 'Lifestyle Medicine' facility that has traditionally only been available to professional athletes and Hollywood actors.

**THE PROJECT.**

The luxuriously appointed 5,860 sq. ft. facility includes an area that brings together a number of the most effective fitness methodologies, including group classes, specialist athletic training, speed and agility, and muscular development. Escape's gym design team created 3D visualizations for the space, which is kitted out with equipment including an Octagon HTS frame, Quad Sled, Plyosoft Boxes, TIYRs, Bulgarian Bags and Dumbbells.

**RESULTS.**

Escape's functional training tools are helping members to travel along their fitness journeys, measuring and tracking progress as they work out with support from fitness professionals. Carbon World Health says that when people walk into their facility for the first time, they are in awe. Once the workouts begin, they love the experience and comfort of having their hands on Escape's quality, high-end equipment.

**WHY ESCAPE?**

Escape equipment gives us the versatility to train everyone, from fitness beginners just starting out, to pro athletes looking for a competitive edge. Escape helps us challenge our fitness members to gently increase range of motion while decreasing pain, inflammation and stiffness. It's a complete joy to see how empowering that is for our members.

*Russ Beier, Fitness Director, Carbon World Health.*

# CROSS TRAINING BUMPER PLATES.

These top-quality plates have features for all-round use including extra bounce and recessed finger grips for quick weight changes. They offer a blend of quality, durability and features that make them ideal for heavy-usage applications, including in specialist strength stations and cross training areas.

**TECH SPEC.**

These plates feature a synthetic rubber core and a natural rubber outer – the perfect balance of durability and performance.

**FLOORING.**

To protect the gym floor, plates and members from injury, ensure these Cross Training Bumper Plates are used on suitable flooring. Choose the Lift Zone (see page 96) or the Weight Layer Tile or Flexi-Tuf for the very best performance. See page 215 to find out more about flooring options.

**STORAGE.**

Keep the Cross Training Bumper Plates tidy and easily accessible by storing them on the Toast Rack (see page 94).

ECTBP10	10 kg / 22 lbs	Cross Training Bumper Plate	\$115.00
ECTBP15	15 kg / 33 lbs	Cross Training Bumper Plate	\$155.00
ECTBP20	20 kg / 44 lbs	Cross Training Bumper Plate	\$200.00

Plates sold individually.

# CROSS GRIP OLYMPIC PLATES.

Whether you're lifting with a bar or using a plate loading machine, our Cross Grip Olympic Plates are ideal. A solid steel core, stainless steel bush and urethane coating make for superb durability. The ergonomic handles also make them great for using as resistance tools in their own right.

**TECH SPEC.**  
Escape is the only company to use solid steel in the core of our urethane-coated Cross Grip Olympic Plates rather than cast iron.

# HOW TO CHOOSE.

## PERFORMANCE BAR.

For Olympic lifts with no compromise. Maximum rotation and whip for faster transitions between sections of a snatch or clean and jerk.

LENGTH: 7' 2½"  
SHAFT DIAMETER: 1 1/8"  
WEIGHT: 44 lbs  
BEARING: Cast bronze bearings

APERB01 44 lbs Performance Bar \$500.00

## WOD BAR.

A great cross training all-rounder, and an ideal entry point for anyone progressing to Olympic lifting for the first time.

LENGTH: 7' 2½"  
SHAFT DIAMETER: 1 1/8"  
WEIGHT: 44 lbs  
BUSH: Bronze bush

AWODB01 44 lbs WOD Bar \$370.00

## WOMEN'S WOD BAR.

The WOD Bar formula revisited with length, diameter and weight specifications for female lifters.

LENGTH: 6' 7¼"  
SHAFT DIAMETER: 1"  
WEIGHT: 33 lbs  
BUSH: Bronze bush

AWWDB01 33 lbs Women's WOD Bar \$340.00

## TECHNIQUE BAR.

A specialist coaching bar that's easy to manage and ideal for teaching the correct movement patterns.

LENGTH: 5' 4¼"  
SHAFT DIAMETER: 1"  
WEIGHT: 11 lbs  
BUSH/BEARING: N/A

ATECB01 11 lbs Technique Bar \$255.00

## TOAST RACK.

This strong, sturdy and stylish steel Toast Rack provides plate storage for clubs where strength training means serious business. It comes complete with wheels for easy movement around the club.

### TECH SPEC.

This Toast Rack is made using high-quality materials. It is fully customizable to suit the individual needs of any club, and several can be connected together in a modular system for those who need more storage space.

### DESIGN.

The Toast Rack has been created to inject color and style into plate storage solutions, and gives club owners the chance to create the most suitable storage system for their needs.

### STORAGE.

The Toast Rack is fully adjustable and will accommodate bumper plates in the combination of your choice.

### REGISTERED DESIGN.

**OTR001** Octagon Toast Rack  
Size 12" x 12" x 43". Weight 59.5 lbs. **\$510.00**  
**Plates sold separately.**

## COLLARS.

Our range of collars has been developed to ensure your plates remain secure, regardless of the type of lifting you're doing.

### WOD COLLAR.

This collar is all about maximum strength and holding power, along with superb usability thanks to the larger lever.

**WODC01** 2" WOD Collar – Black – Pair **\$56.00**  
Internal Diameter 2" / 52mm. Weight 7 oz / 0.2 kg.

### OLYMPIC CLAMP COLLAR.

A great collar for general training. Quick-twist design for speed and extra-tight fit to ensure the collar does not work loose.

**KAMCOL2** 2" Olympic Clamp Collar – Red – Pair **\$15.50**  
Internal Diameter 2" / 52mm. Weight 6 oz / 0.17 kg.

## OCTAGON WEIGHT TREE.

Keep your plates from across the Escape range in great shape. This Weight Tree has impressive capacity from a small footprint and complements the aesthetics of our other storage solutions and Octagon frames.

**WTREE1** Octagon Weight Tree **\$830.00**

### SPECIFICATIONS.

Size 48" x 13 3/4" x 39 1/4". Weight 236 lbs.

**Plates sold separately.**

# LIFT ZONE.

This heavy-duty and flexible lifting platform offers superb shock absorption, ensuring your flooring is protected from damage and marking.

**TECH SPEC.**  
The Lift Zone helps to reduce noise in heavy lifting areas. 100% EPDM (ethylene propylene diene monomer) strong rubber top wear layer ensures the Lift Zone's performance is second-to-none. The Lift Zone graphic is permanent and will not wear off with repeated use, so your Lift Zone will look good for longer.

**EXPERT TIP.**  
Use the Lift Zone to create a designated lifting area within your club. The Lift Zone will help protect gym floors and keep the area clear so people can practice Olympic lifting confidently and safely. Plus, because the Lift Zone is portable it can be moved around the club so your floor, equipment and members are always protected.

**FUNCTIONAL FRAMES.**  
Use the Lift Zone with the Octagon and the Octagon BOX frames to provide a safe place to drop heavily loaded bars. Most Octagons are installed in functional areas, so adding Lift Zones ensures your gym floor is protected when people are lifting or squatting.

LIFTPLAT1	Lift Zone – Small	\$2,100.00
LIFTPLAT2	Lift Zone – Large	\$2,600.00
LIFTPLAT3	Lift Zone Basic – Small	\$700.00
LIFTPLAT4	Lift Zone Basic – Large	\$1,300.00

**SPECIFICATIONS.**  
Small size 79" x 39" x 1½".  
Large size 79" x 79" x 1½".

**LIFT ZONE.**  
Incorporates a permanent water-jet logo.

**LIFT ZONE BASIC.**  
Comes without the Lift Zone logo.

# CABLE ATTACHMENTS.

Escape offers a full selection of comfortable and robust cable machine attachments.

Our cable attachments feature a hard chrome covering so they will continue to look good for longer, while the polyurethane grip is injection-moulded onto the bar, creating a solid bond to the metal surface. The grips are formed to make them more comfortable when in use.

# TRIB3

## TRIB3.

### BACKGROUND.

Fitness entrepreneur, Kevin Yates, has enjoyed a successful relationship with Escape Fitness for over a decade, taking in projects at Fitness First, 1Rebel and Esporta. Kevin knows that, whatever design aesthetic, training layout or concept he wants, Escape can deliver. TRIB3 is Kevin's newest venture – a dedicated bootcamp gym in Sheffield. It's a vibrant training environment with a big focus on the collective experience: members push harder and 'sweat as one'.

### THE PROJECT.

Kevin had a clear sense of what he wanted and called on Escape to deliver an inspiring training environment to complement the TRIB3 design. Escape worked hard to make the most of the space – to reinforce TRIB3's emphasis on the fitness experience. They recommended a carefully selected range of functional equipment, including kettlebells, medicine balls and dumbbells.

### RESULTS.

One of the key ingredients in this relationship was restraint. Escape didn't inundate TRIB3 with equipment. Instead they recommended core pieces that would streamline workouts. Kevin knew that the Escape team could create a gym space that complemented their vision. Escape delivered the 'eye-catching designs' Kevin wanted. But it wasn't just about the aesthetics.

### WHY ESCAPE?

Kevin relied on Escape for a training space that created interest, inspired people to join, and delivered bottom line results. "We've had unbelievable feedback; people who attend boutique studios around the country and in London say we're up there with Barry's! That's the best accolade you can achieve. On Facebook and other platforms, people post how good the workout and experience at TRIB3 is."

**Kevin Yates.**

## OCTAGON BENCH.

The Octagon Bench is inspired by the Octagon range of functional frames, and is the perfect complement to the Octagon frames for members who want to perfect their bench press.

### DESIGN.

The angle of the bench can be set at a variety of angles from a 10° decline through to an upright 90° position. Four examples of settings are shown on the right.

### DESIGN.

The Octagon Bench is designed to provide avid strength-trainers with the space they need for a total body workout. Suitable for a whole range of strength training exercises.

### TECH SPEC.

The size and shape of the back pads offer more support than ever for much better comfort and stability.

**OBEN001** Octagon Training Bench **\$1,450.00**

### SPECIFICATION.

Size 19½" (flat), 50" (90°) x 29" x 59". Weight 78 lbs. Can support a gross weight of 880 lbs (user and load combined).

# OCTAGON.

There is one piece of equipment that grabs user attention like no other – the challenging and versatile functional frame. The Escape Fitness range really stands out from the rest and provides a full range of functional training experiences to fitness clubs – including body conditioning training, cross training and athletic-based training. Suitable for all members, from the fitness beginner to the advanced athlete, these functional frames and storage-based products offer a comprehensive solution to optimize any space.

## THE OCTAGON FRAME RANGE.

The Octagon range of functional training frames epitomizes the Escape Fitness approach to functional and performance-based training. Combining exciting workout experiences with effective programming, these frames are designed to get the very best results for every user.

Functional frames continue to grow in popularity within health clubs and gyms of all types. From boutique independents to multi-national chains, everyone wants in.

With Escape's expertise and frames that are designed, developed and manufactured in Great Britain, owners and managers can be sure that their Octagon frame will provide their members and trainers with years of fitness training opportunities.

Whether your gym is big or small, and regardless of the users' fitness abilities, we have a range of frames of different sizes to ensure you can choose one that's just right for your club.

## THREE TRAINING STYLES, THOUSANDS OF WORKOUT OPTIONS.

The development of the Octagon range focuses on three key styles of training: body conditioning, cross training and athletic training. Within each category is a progression of frames in terms of size, functionality and storage options. This approach guarantees that there's a frame configuration perfect for every gym, no matter what types of user it caters to.

### 01 BODY CONDITIONING TRAINING FRAMES.

When members move on from CV and weight machines into functional training they can tell within minutes that it's going to help them achieve more than ever, and have more fun in the process. That's what the Octagon Hub Training System (HTS) frames are all about. With integrated storage shelves, an HTS is the ideal station for workouts that get people moving quickly between functional tools, suspension training and bodyweight exercises.

These frames are ideal for:

- **Club** – Gyms with a variety of members who want to increase their functional training offering. Also ideal for hotels and multi-housing.
- **Trainer** – One-to-one sessions with beginners. Trainers who want to expand their earning potential with group training.
- **User** – Those new to functional training, seeking to learn more. Seasoned fitness fans looking to improve their overall strength and conditioning.

See pages 106-119 for our Body Conditioning Training Frames.

OCTAGON.

### 02 CROSS TRAINING FRAMES.

Cross training frames build on from the body conditioning frames, introducing extra training tools and styles for more confident and skilled users. The Escape Fitness range of cross training frames accommodates barbells, free weights and bodyweight movements for a challenging strength and conditioning workout.

These frames are ideal for:

- **Club** – Cross training clubs, private PT studios and gyms with members who want to take their functional training to the next level.
- **Trainer** – Those wanting to push their clients to improve strength and power. Ideal for trainers to provide group cross training sessions.
- **User** – An ideal frame for cross training enthusiasts to work on their squats, pull-ups and overall strength. Great for those who have mastered the basics of functional training and want to push themselves.

See pages 120-135 for our Cross Training Frames.

### 03 ATHLETIC TRAINING FRAMES.

When elite members are looking to develop strength, power, muscular endurance and all-round physical fitness, these frames give them something special. The emphasis is on weight training, with individual stations that let users focus on their technique and performance.

These frames are ideal for:

- **Club** – University gyms, competitive and high-performance sports centers and cross training-style clubs.
- **Trainer** – Professional conditioning coaches and personal trainers working one-to-one with their clients.
- **User** – Sports teams and competitive athletes. Members looking to build muscle, strength and overall lifting performance.

See pages 136-145 for our Athletic Training Frames.

## BODY CONDITIONING TRAINING FRAMES.

Body conditioning training frames are the ideal solution for clubs looking to provide their members with an all-around functional training experience. Members may be seeking to improve their overall fitness and looking to learn some extra skills for a more enjoyable, varied workout. The Hub Training System provides a space for suspension training, extensive storage opportunities and solutions to suit any size of club. What's more, the exciting and effective MOVE IT program ensures your instructors and members make the most of everything these functional frames have to offer.

# HTS – TAKING FUNCTIONAL WORKOUTS TO THE NEXT LEVEL.

OCTAGON.

For more information and to watch the Octagon HTS video, visit:

[www.escapefitness.com/us/new-products/hts](http://www.escapefitness.com/us/new-products/hts)

## OCTAGON HTS 4.

This compact version of the HTS is ideal for small studios, hotels and multi-housing facilities. It features four Octagon legs, and gives facilities the opportunity to provide a dedicated space for suspension training. It also features two Hub Storage Walls, providing essential storage solutions for a variety of functional training equipment.

## HTS 4.2.

The HTS 4.2 is the smallest available version of the HTS frame. It features ten integrated storage shelves for functional training equipment – kettlebells, medicine balls, training bags and more.

### DIMENSIONS.

### USERS AND WORKING AREA.

**4 USERS.** Can accommodate up to **2 users** working on the frame and up to **2 users** around the frame.

**64ft²** Frame-based working area for up to **2 users**.

**226ft²** Floor-based working area for up to **4 users**.

OHTS402	Octagon HTS 4 Leg 2 Beam	\$8,585.00
---------	--------------------------	------------

## HTS 4.3.

The HTS 4.3 includes ten integrated storage shelves. Each shelf holds functional training equipment – training bags, medicine balls and more.

### DIMENSIONS.

### USERS AND WORKING AREA.

**6 USERS.** Can accommodate up to **3 users** working on the frame and up to **3 users** around the frame.

**89ft²** Frame-based working area for up to **3 users**.

**274ft²** Floor-based working area for up to **6 users**.

OHTS403	Octagon HTS 4 Leg 3 Beam	\$9,275.00
---------	--------------------------	------------

## OCTAGON HTS 6.

The HTS 6 helps fitness facilities maximize group sessions and suspension training. Its six-leg design creates extra space to incorporate strength and mobility exercises into classes to get clients moving freely. Four Hub Storage Walls provide enough storage capacity for national clubs or larger independents looking to inject the 'WOW' factor into their functional training. The BOA Rail also lets you incorporate boxing into sessions (see [page 112](#) for details).

An Octagon HTS 6 is a great frame to use as the basis for MOVE IT group training sessions, keeping space clear beneath the frame and providing all the storage capacity you need for equipment used in MOVE IT workouts.

**MOVE IT.**

### HTS 6.2.

The HTS 6.2 features 22 integrated storage shelves for functional training equipment – kettlebells, medicine balls, training bags and more. For more details on full equipment packs see [page 233](#).

#### DIMENSIONS.

#### USERS AND WORKING AREA.

**12 USERS.** Can accommodate up to **4 users** working on the frame and up to **8 users** around the frame.

**OHTS602** Octagon HTS 6 Leg 2 Beam **\$14,685.00**

### HTS 6.3.

The HTS 6.3 features 30 integrated storage shelves for functional training equipment – kettlebells, medicine balls, training bags and more. For more details on full equipment packs see [page 233](#).

#### DIMENSIONS.

#### USERS AND WORKING AREA.

**18 USERS.** Can accommodate up to **6 users** working on the frame and up to **12 users** around the frame.

**OHTS603** Octagon HTS 6 Leg 3 Beam **\$17,120.00**

### HTS 6.4.

The HTS 6.4 features 38 integrated storage shelves for functional training equipment – kettlebells, medicine balls, training bags and more. For more details on full equipment packs see [page 233](#).

#### DIMENSIONS.

#### USERS AND WORKING AREA.

**24 USERS.** Can accommodate up to **8 users** working on the frame and up to **16 users** around the frame.

**OHTS604** Octagon HTS 6 Leg 4 Beam **\$19,550.00**

## OCTAGON HTS BOA RAIL.

The BOA (Boxing Octagon Attachment) Rail can be added to any HTS 6 or HTS 8 frame, enabling clubs to incorporate boxing into their PT and group training programs. The beauty is in its simplicity: just slide punchbags into place when you need them, lock them in position, and slide them back for storage.

### PLEASE NOTE.

As standard the BOA Rail and all attachments come in Anthracite. All other color combinations will incur additional charges.

## BOA RAIL.

The BOA Rail is a secure anchor point for punchbags, opening up the opportunities for developing the strength, endurance, coordination, speed and agility that boxing is known for.

Boxing is of course high intensity in nature, so a few minutes of bag work will typically leave people ready to switch to another training mode. That's the real beauty of the BOA Rail, as it enables trainers and clients to make mid-session transitions between boxing and other training styles.

Even the biggest bag stays in place where you want it, thanks to a strong spring-loaded locking mechanism. When you want to move the bag back into the storage position, just unclip the lock and slide the bag across. Now the working area beneath the frame will be free for the other exercise styles that make up a great HTS-based workout.

### WORKING POSITION.

Depending on the size of frame chosen, the BOA Rail provides capacity for two, three or four punchbags to be used at the same time.

2 USERS.

3 USERS.

4 USERS.

### DOCKED POSITION.

When the boxing session is over, simply release the locking mechanism and slide each bag over for neat storage.

2 BAGS.

3 BAGS.

4 BAGS.

### PROVEN DURABILITY.

The principle behind the rail is found in the automotive industry, where big components such as engines, doors and windscreens are moved through the production line safely and smoothly. The steel used for the BOA Rail has the same strength rating as the rails used in car assembly: it really is that strong.

# OCTAGON HTS 8.

The largest HTS configuration delivers the ultimate in capacity, with configurations from 14ft 9" right up to 29ft 6". A set of monkey bars is incorporated into the design, a feature that's always a big hit with members looking for fun and new challenges. There's extensive storage capacity for Bulgarian Bags, Kettlebells, Corebags, CMTs and more, so users can quickly switch from frame-based exercise to using functional equipment.

An Octagon HTS 8 the ultimate frame to use as the basis for MOVE IT group training sessions, creating maximum space beneath the frame and providing all the storage capacity you need for equipment used for even the largest MOVE IT class sizes.

**MOVE IT.**

# HTS 90 – BRINGING CORNER SPACES TO LIFE FOR TRAINING AND STORAGE.

For more information about the Octagon HTS 90, visit:  
[www.escapefitness.com/us/new-products/hts90](http://www.escapefitness.com/us/new-products/hts90)

**PLEASE NOTE.**  
Frames do not include balls, bags, bars, Battle Rope, kettlebells, plates, punchbag, rollers or TRX.

# OCTAGON HTS 90.

The HTS 90 takes all the key features from the HTS concept and rearranges them into something that slots perfectly into corner spaces. It transforms these under-used corner spaces into revenue-generating assets. With a range of attachments and ample equipment storage capacity, each frame can accommodate small group workouts and provide a multifunctional destination for PT sessions.

## CROSS TRAINING FRAMES.

Cross training incorporates strength, bodyweight and cardio exercises in order to improve all-around fitness and physical ability. These cross training frames provide stations to give users just what they need in order to achieve their goals. From pull-ups to squats, and boxing to battling rope, the Escape Fitness cross training frames equip instructors with the tools they need to deliver effective group training sessions. With five frame options, you're sure to find one to suit your club and members.

OCTAGON.

# OCTAGON T1 TYPE 1

This may be the ‘base model’ T1 but it’s anything but basic. Multiple exercise options are supported with the standard T1 features: Weight Horn for plate storage, Pull-up and Dip Stations, and attachment points for a Torso Trainer, TRX Suspension Trainer and Punchbag.

**PLEASE NOTE.**  
**OCTT201** does not include bar, Battle Rope, punchbag, plates or TRX.

**USERS AND WORKING AREA.**

The Octagon T1 accommodates up to five users at the frame. Ideal for personal trainers to run small group conditioning sessions.

**9 USERS.** Can accommodate up to **5 users** working on the frame and up to **4 users** around the frame.

**36ft²** Frame-based working area for up to **5 users**.

**62ft²** Floor-based working area for up to **9 users**.

**OCTT201 T1 Type 1**

**\$4,685.00**

**DIMENSIONS.**

T1 Type 1 attachments include:

- 1 x Boxing Arm and Swivel
- 1 x Torso Trainer
- 1 x Weight Horn
- 1 x Pull-Up Station
- 1 x Fixed Dip Station
- 1 x Bar Holder
- 1 x Claw
- 1 x TRX Anchor Point

Other color options available, please call for details.

# OCTAGON T1 TYPE 2

The Rope Pulley is a great addition to the T1 configuration on this model. It’s a brilliant tool to incorporate into small group training circuits, with pulley work giving users another challenge for core and upper body development.

**PLEASE NOTE.**  
**OCTT202** does not include bar, Battle Rope, punchbag, plates or TRX.

**USERS AND WORKING AREA.**

The Octagon T1 accommodates up to six users at the frame. Ideal for personal trainers to run small group conditioning sessions.

**10 USERS.** Can accommodate up to **6 users** working on the frame and up to **4 users** around the frame.

**36ft²** Frame-based working area for up to **6 users**.

**62ft²** Floor-based working area for up to **10 users**.

**OCTT202 T1 Type 2**

**\$7,810.00**

**DIMENSIONS.**

T1 Type 2 attachments include:

- 1 x Rope Pulley Attachment
- 1 x Torso Trainer
- 1 x Weight Horn
- 1 x Pull-Up Station
- 1 x Fixed Dip Station
- 1 x Boxing Arm and Swivel
- 1 x Bar Holder
- 1 x Claw
- 1 x TRX Anchor Point

Other color options available, please call for details.

# OCTAGON T1 TYPE 3

This T1 configuration includes a Reaction Pro Bounder for fast-action medball exercises to develop reaction time, agility and speed.

**PLEASE NOTE.**  
OCTT203 does not include bar, Battle Rope, punchbag, plates or TRX

**USERS AND WORKING AREA.**  
The Octagon T1 accommodates up to six users at the frame. Ideal for personal trainers to run small group conditioning sessions.

**10 USERS.** Can accommodate up to **6 users** working on the frame and up to **4 users** around the frame.

**36ft²** Frame-based working area for up to **6 users**.

**62ft²** Floor-based working area for up to **10 users**.

**OCTT203** T1 Type 3 **\$5,275.00**

T1 Type 3 attachments include:

- 1 x Boxing Arm and Swivel
- 1 x Pull-Up Station
- 1 x Pro Grade Dip Station
- 1 x Torso Trainer
- 1 x Weight Horn
- 1 x Bar Holder
- 1 x Short Adjuster Teeth
- 1 x Reaction Pro Bounder
- 1 x Claw
- 1 x TRX Anchor Point

Other color options available, please call for details.

# OCTAGON T1 TYPE 4

Completing the line-up is a model that partners the Reaction Pro Bounder with a Rope Pulley. It's another combination that delivers the T1's trademark of superb variety in a compact package.

**PLEASE NOTE.**  
OCTT204 does not include bar, Battle Rope, plates or TRX

**USERS AND WORKING AREA.**  
The Octagon T1 accommodates up to six users at the frame. Ideal for personal trainers to run small group conditioning sessions.

**10 USERS.** Can accommodate up to **6 users** working on the frame and up to **4 users** around the frame.

**36ft²** Frame-based working area for up to **6 users**.

**62ft²** Floor-based working area for up to **10 users**.

**OCTT204** T1 Type 4 **\$7,710.00**

T1 Type 4 attachments include:

- 1 x Rope Pulley Attachment
- 1 x Pull-Up Station
- 1 x Pro Grade Dip Station
- 1 x Torso Trainer
- 1 x Weight Horn
- 1 x Bar Holder
- 1 x Short Adjuster Teeth
- 1 x Reaction Pro Bounder
- 1 x Claw
- 1 x TRX Anchor Point

Other color options available, please call for details.

# T2 - COMBINING MAXIMUM FUNCTION WITH STORAGE.

OCTAGON.

# OCTAGON T2 TYPE 1.

**PLEASE NOTE.**  
OCT201 does not include bar, mats, Battle Rope, punchbag, plates or TRX.

The perfect, compact blend of functional frame, attachments and equipment storage, the T2 is packed with facilities for pull-ups, dips, boxing, barbell lifting and more. Switch quickly between frame-based exercises and use of the functional tools neatly stored on the integral rack. The T2 really excels as a hub for small group workouts, with users moving from station to station to get a whole body workout.

**OCT201**    T2 Type 1  
T2 Type 1 attachments include:

- 1 x Boxing Arm and Swivel
- 1 x Torso Trainer
- 1 x Weight Horn
- 1 x Pull-Up Station

\$11,500.00

**DIMENSIONS.**

# OCTAGON ISO™ 2.0.

The Octagon ISO is a multi-functional, strength-focused group cross training station that allows six people to work out on and around the frame. Sitting flush against a wall, the slimline Octagon ISO is the ideal solution when space is limited, easily allowing you to maximize your gym floor.

**PLEASE NOTE.**  
OISO201 does not include bars, Battle Rope or plates.

**USERS AND WORKING AREA.**  
The ISO accommodates up to three users at the frame but up to six people can effectively work around the ISO. This is achieved by having three people at the frame itself and three using functional equipment. Trainers can rotate people circuit style, which makes good business sense for the gym and maximizes the training experience for members.

**6 USERS.** Can accommodate up to 3 users working on the frame and up to 3 users around the frame.

**161ft²** Frame-based working area for up to 3 users.

**301ft²** Floor-based working area for up to 6 users.

**OISO201** ISO2 Frame and Attachments  
ISO2 attachments include:

- 1 x Torso Trainer
- 2 x Weight Horns
- 2 x Pull-Up Handles
- 1 x Catch Rack Pair
- 1 x Battle Rope Eye

Other color options available, please call for details.

**\$7,150.00**

**DIMENSIONS.**

# OCTAGON QUAD™ 2.0.

The Octagon QUAD is a versatile training station that allows 12 people to work out on and around the frame. The QUAD also allows users to complete a full bodyweight workout with Monkey Bars, Dip Station and Pull-up Bars.

**PLEASE NOTE.**  
OQUA201 does not include bars, Battle Rope, plates or punchbag.

**USERS AND WORKING AREA.**  
The QUAD accommodates up to six users at the frame but up to 12 people can effectively work around the QUAD. This is achieved by having six people at the frame itself and six using functional equipment. Trainers can rotate people circuit style, which makes good business sense for the gym and maximizes the training experience for members.

**12 USERS.** Can accommodate up to 6 users working on the frame and up to 6 users around the frame.

**193ft²** Frame-based working area for up to 6 users.

**430ft²** Floor-based working area for up to 12 users.

**OQUA201** QUAD2 Frame and Attachments  
QUAD2 attachments include:

- 1 x Torso Trainer
- 2 x Weight Horns
- 1 x Raised Pull-Up Bar
- 6 x Monkey Bars
- 1 x Catch Rack Pair
- 1 x Boxing Arm and Swivel
- 1 x Fixed Dip Station
- 1 x Battle Rope Eye

Other color options available, please call for details.

- 871ft²** Floor-based working area for up to **18 users**.

## ATHLETIC TRAINING FRAMES.

Those seeking high performance need training facilities to match. With our range of Octagon BOX training frames, elite users have the ideal partner for their squats, presses, pull-ups, big lifts and cardio exercises. These frames give professional sports gyms, universities, colleges and strength-based clubs the ability to provide safe and rewarding workout destinations for their more demanding users.

MONO.

The MONO gives clubs the core functionality of an Octagon Half BOX, with Catch Racks for barbell lifts and an overhead pull-up attachment. However, by removing extra features like plate storage, we have created a frame with the same build quality but the minimum footprint required for this style of training. The MONO can either be bolted to the gym floor or supplied as a freestanding frame with feet and optional rubber foot pads.

RUBBER OCTAGON FEET.

These optional rubber feet are recommended when the MONO is used freestanding rather than bolted to the floor. They provide added grip and stability, and protect flooring from scratches.

USERS AND WORKING AREA.

The MONO can accommodate one user at a time.

**1 USER.** Can accommodate 1 user working on the frame.

**16ft²** Minimum working area for 1 user.

**26ft²** Optimum space working area.

- OSQR01** MONO Frame and Attachments  
MONO attachments include:
- 1 x Catch Rack Pair
  - 1 x Bull Horn Pull-Up Bar.

Other color options available, please call for details.

PLEASE NOTE.

All attachments, bars and plates are sold separately.  
Bolt to floor and freestanding versions available.

DIMENSIONS.

HALF BOX.

A specialist station for strength training, with the outstanding build quality that's essential for clubs and users serious about their performance. Catch Racks are in place for barbell lifting, as well as Extended Catch Rack Arms for safety when squatting or bench pressing. Six Weight Horns take care of plate storage, plus there are Pull-up Bars and a horizontal beam for suspension trainers and resistance bands.

**PLEASE NOTE.**  
Bars and plates are sold separately.

USERS AND WORKING AREA.

The Half BOX can accommodate one user at a time.

**1 USER.** Can accommodate 1 user working on the frame.

**16ft²** Minimum working area for 1 user.

**29ft²** Optimum space working area.

- OBHS101** Half BOX Frame and Attachments  
Half BOX attachments include:

- 6 x Weight Horns
- 2 x Pull-Up Handles
- 1 x Catch Rack Pair
- 1 x Extended Catch Rack Pair

Other color options available, please call for details.

DIMENSIONS.

# HEAVY DUTY FRAMES FOR HEAVY DUTY LIFTING.

For more information and to watch the WOD BOX video, visit:

[www.escapefitness.com/us/WOD-BOX](http://www.escapefitness.com/us/WOD-BOX)

**PLEASE NOTE:**

Frame shown is custom made. Please contact your representative for more details.

# WOD BOX 248.

The all-in-one location for strength workouts, with enough facilities for two people to train simultaneously. Catch Racks, Extended Catch Rack Arms and Catch Straps are included, along with locators for adjustable pins for use with resistance bands. Pull-up Bars are also there for bodyweight exercises. Available with or without plate storage facilities.

USERS AND WORKING AREA.

The WOD BOX 248 can accommodate two users at a time, typically with one person lifting and the other doing pull-ups and Wing exercises.

- 2 USERS.** Can accommodate up to **2 users** working on the frame
- 26ft²** Minimum working area for **2 users**.
- 39ft²** Optimum space working area.

# WOD BOX 279.

Adding an extra 12" in height to the WOD BOX 248 makes the WOD BOX 279 our ultimate high performance strength station. That extra overhead clearance will be welcomed by the biggest lifters who want to power through to the top of their jerks and presses with supreme confidence. It includes all the features of the WOD BOX 248, with a Wing replacing the front Pull-up Bar. Available with or without plate storage facilities.

USERS AND WORKING AREA.

The WOD BOX 279 can accommodate two users at a time, typically with one person lifting and the other doing pull-ups and Wing exercises.

- 2 USERS.** Can accommodate up to **2 users** working on the frame
- 26ft²** Minimum working area for **2 users**.
- 39ft²** Optimum space working area.

# OCTAGON HALF SQUAD 2.0.

The Octagon Half Squad provides essential space for users to improve their strength and power. Its slimline design makes it one of the few frames that can sit so closely to a wall. It is half the depth of other Octagon BOX frames – perfect for busy clubs, or areas where space is limited. Four tiers of integrated equipment shelving allows users to quickly access functional equipment, reducing time in between sets.

## PLEASE NOTE.

Frames do not include balls, bags, bars, dumbbells, kettlebells or plates.

REGISTERED  
DESIGN.

## USERS AND WORKING AREA.

The Half Squad configuration allows for a dedicated lifting and strength solution, without sacrificing too much floor space. This gives members or team mates the opportunity to train alongside one another regardless of how large the squad is. Install the Half Squad if you have members or sports teams looking for a space that allows them to squat, press and lift. Plus, it features integrated storage to hold equipment such as VERTBALLS, kettlebells, dumbbells, Bulgarian Bags and plates.

**3 USERS.** Can accommodate up to 3 users working on the frame.

**30ft²** Minimum working area for up to 3 users.

**49ft²** Optimum working area

<b>OBHS201</b>	Half Squad 2.0 Frame, 16 Storage Shelves,	<b>\$21,000.00</b>
<b>OBHS202</b>	Half Squad 2.0 Frame, 8 Storage Shelves	<b>\$19,350.00</b>

Half Squad attachments include:

- 2 x Suspension Beams
- 2 x Toast Racks
- 2 x Catch Rack Pairs
- 2 x Extended Catch Rack Pairs
- 6 x Weight Horns
- 4 x Pull-Up Handles

Other color options available, please call for details.

## DIMENSIONS.

## OCTAGON HUB STORAGE.

The Octagon Hub Storage options provide storage that's versatile, unique and personal to the needs of your club. This solution will ensure your floorspace is maximized, with equipment kept safe, tidy and accessible.

## UNIVERSAL SHELVING.

Octagon Hub Storage features integrated storage shelves that can store a range of Escape functional training equipment. From Bulgarian Bags to Gym Balls and kettlebells to medicine balls, this storage solution can be situated flush against a wall to save space, or it can be used to separate designated training areas within the club.

Each single Hub Storage Wall features ten fully adjustable shelves that can be configured to best suit a club's requirements. Individualized combinations can be created to increase storage capabilities.

This is the ideal solution for clubs to keep equipment off the floor and within easy reach for fast changes during workouts.

Triple Storage

<b>OHTSW01</b>	Octagon Single Storage Hub ~ 10 shelves	<b>\$4,730.00</b>
<b>OHTSW02</b>	Octagon Double Storage Hub ~ 20 shelves	<b>\$8,490.00</b>
<b>OHTSW03</b>	Octagon Triple Storage Hub ~ 30 shelves	<b>\$12,250.00</b>

See **page 37** for more information about RACK5 shelving.

Other color options available, please call for details.

### DIMENSIONS.

OCTAGON.

# INTELLIGENT, INTEGRATED, INFINITE.

# OCTAGON BALL REACTION RANGE.

The versatility of the Octagon frame concept is now greater than ever. Easy to install and intuitive to use, these new attachments are specifically designed to integrate medicine ball workouts into the mix.

## LEG TARGET AND DOCK TARGET.

For precision, the Leg and Dock Targets are perfect for the classic 'squat-and-throw' wall ball exercise. These are designed to be installed above head height, and include 9ft and 10ft markings necessary for CrossFit WODs. Use VERTBALL, VERTMINI or Total Grip Medballs as they have just enough bounce to drop back into the user's hands for the next rep.

OCE016	Dock Target	\$610.00
OCE017	Leg Target	\$620.00
SPECIFICATIONS.		
DockTarget: Size 23½" x 33½". Weight 25.4 lbs		
Leg Target: Size 23½" x 37½". Weight 9.5 lbs		

## WALL TARGET.

For power, mount a Wall Target lower down for fast rotational throws. You can install multiple targets at various heights on the same frame and use the Slamball for super-fast strikes against a target at close range. The shock absorbing properties of the Slamball will prevent it from rebounding towards the user.

OCE013	Wall Target	\$350.00
SPECIFICATIONS.		
Wall Target: Size 23½" x 23½". Weight 29.3 lbs		

## REACTION PRO BOUNDER.

Agility, reaction time, hand-eye coordination, proprioceptive awareness, upper body strength and balance can all be developed with this attachment. The VERTMINI and Total Grip Medball are among the medballs that can partner with the Reaction Pro Bounder for fast and fun exercises.

OCA051	Reaction Pro Bounder	\$495.00
OCA052	Reaction Pro Bounder Teeth	\$105.00
SPECIFICATIONS.		
Reaction Pro Bounder: Size 28" x 32" x 37".		

# OCTAGON FRAME ATTACHMENTS.

Escape offers a wide selection of optional attachments to maximize the functionality and versatility of your Octagon frames. A small selection is shown below: please contact us or your sales representative for details of the full range.

## BOXING ARM.

OCA007	Boxing Arm with Swivel	\$700.00

## DOCK BOXING BRACKET.

OCA061	Dock Boxing Bracket with Swivel.	\$355.00
--------	----------------------------------	----------

## FIXED DIP STATION.

OCA016	Fixed Dip Station	\$505.00
--------	-------------------	----------

## WING.

OCA006	Wing	\$680.00
--------	------	----------

## ROPE PULLEY UNIT ATTACHMENT.

OCA015	Rope Pulley (without Support Bracket)	\$2,825.00
OCA012	Support Bracket	\$305.00
Rope Pulley needs to be ordered with the Support Bracket.		

## EXTENDED CATCH RACK ARMS.

OCA053	Extended Catch Rack Arms (pair)	\$775.00
--------	---------------------------------	----------

# AMMO BOX.

Training areas get very messy, very quickly, when there isn't a proper place to store small training equipment like boxing gloves, power bands and so on. The Ammo Box solves the problem – it's a stylish storage solution with enough capacity for clubs where functional training tools are in high demand.

OCTAGON.

**TECH SPEC.**

Made from 95% carbon steel, the Ammo Box is built to take a lot of abuse in busy gyms. The front handle and wheels make it easy to move it to where people are working out - for example in a group session - and then back to its usual location.

**DESIGN.**

Features include gas struts for a soft-close lid and ventilation to help complete the drying of equipment between workouts. The flat pack format (with toolkit and assembly instructions) reduces shipping costs and we pass this saving on to our customers.

**EXPERT TIP.**

The optional dividers get the most from the Ammo Box, helping to prevent equipment from piling up on top of each other. You can also use the dividers to create a compartment for each type of equipment involved in a varied training program.

**REGISTERED DESIGN.**

AMB001	Ammo Box Storage	\$620.00
AMB002	Ammo Box with Dividers	\$770.00
AMB001C	Ammo Box Dividers	\$170.00

**SPECIFICATION.**

Size 23½" x 24" x 33".  
Weight of internal contents not to exceed 330 lbs.

Equipment sold separately.

**ADD DIVIDERS FOR EVEN MORE STORAGE PERFORMANCE.**

The optional dividers get the most from the Ammo Box, breaking the large internal space down into four smaller sections. This makes equipment even easier to access, and enables you to create compartments for each type of equipment: perfect for when running a circuit of multiple training styles.

**DOES ALL OF THIS EQUIPMENT REALLY FIT IN AN AMMO BOX?**

You bet! Despite its compact footprint, the Ammo Box has an amazing 216-litre capacity - enough for a huge amount of functional training kit.

# STANDARD COLOR OPTIONS.

After you've invested hours designing the perfect gym space, why settle for training frames in a single color? Escape now offers an expanded range of color options, giving you the opportunity to create functional frames that suit your unique club environment. You can order frames and attachments in any of these colors to really put your stamp on things.

**TRAFFIC WHITE**  
RAL9016

**ANTHRACITE GREY**  
RAL7016

**TRAFFIC RED**

OCTAGON.

## SANCTUARY FITNESS.

### BACKGROUND.

Sanctuary Fitness in Los Angeles is the brainchild of Zach Golden and Reid Warner. Their goal was to create a boutique studio with a focus on athletic performance, strength and muscle building, catering to everyone from beginners to seasoned members. A key ingredient of the experience is a Strength Zone featuring HIIT classes that combine functional movements with strength-focused training. Escape was asked to provide a full suite of equipment to support a programming concept based around a station-to-station flow through the 2,000 sq. ft. Strength Zone space.

### WHY ESCAPE?

What sets Escape apart from the other providers we talked to was their willingness to hear about our vision and accommodate the customizations we needed to make that vision a reality. The quality of the equipment is superb, but I know that if we did have any issues Escape would give us full support. Quite honestly, the experience has been so good that I want to keep Escape my secret rather than tell anyone else to use them!

**Zach Golden, CEO and Founder, Sanctuary Fitness. Los Angeles, USA.**

### THE PROJECT.

First-time visitors to the zone are immediately struck by the row of five Escape Octagon T1 frames. These pack a lot into a small footprint, working as stations for a variety of strength, bodyweight and resistance exercise. Free weight work is supported by dumbbells neatly racked in a Cross Hub storage station, and there's a full range of Escape functional training tools, including TIYRs, Multiplies, Corebags, Bulgarian Bags, GRIPRs, medballs and RACK5 storage units. The facility also includes an 850 sq. ft. cycling area equipped with the latest Stages SC3 indoor bikes from Stages Cycling.

### RESULTS.

Escape's bright, colorful products are the perfect complement for the facility's industrial-chic space. Feedback from members has been fantastic, with one online reviewer saying: "A variety of equipment and exercises keep me excited and coming back. It's like a fitness playground and you can't help but smile during class." The positive response translates into business results too. Sanctuary Fitness met all its revenue projections in its first quarter, class occupancy rates are excellent and the future looks bright despite the highly competitive and crowded Los Angeles marketplace.

# STUDIO.

Group exercise continues to be a huge attraction. It's bringing more and more people into clubs for the first time, and providing extra interest and motivation for seasoned gym users. Boutique studios are opening around the world, usually offering people a schedule of exciting classes led by expert instructors. These boutiques are now seriously challenging traditional clubs, who need to respond with superb group programming based around training tools with the right design and features for dynamic, challenging workouts. Escape has a range of products that are ideal for the studio, so whether you are reinventing your existing studio offering or looking to break into this area, we have the tools you need.

# THE ESCAPE PLATFORM RANGE.

The STEP and RISER are set to revolutionize step classes, opening up new opportunities for creative programming that brings more people than ever into the studio.

It's a two-product platform solution, with both STEP and RISER working as independent stepping platforms or together for multiple configuration options.

Instructors now have a system around which they can develop and deliver multi-planar, three dimensional workouts that embrace step, plyometric, resistance and bodyweight exercises.

For more information and to watch the Escape Step video, visit:  
[www.escapefitness.com/us/new-products/step](http://www.escapefitness.com/us/new-products/step)

# THE EVOLUTION OF THE ESCAPE STEP SOLUTION.

The Escape STEP and RISER solution grew from the increasing success of exciting group exercise experiences. The growing popularity of this sector, combined with a lack of product innovation within it, led us to take on the challenge of creating a cornerstone step-based product for the group exercise space.

Group exercise health and fitness clubs around the world are discovering that group exercise is good for business. Despite requiring a relatively low level investment compared to servicing a similar number of people on the gym floor, it has a big impact on member satisfaction and retention.

The numbers speak for themselves. A recent study of 10,062 gym members found that group exercisers are 26% less likely to cancel than gym-only members. Then there's the sheer popularity of group exercise. A good example is that there are now more than 15 million people a week doing Zumba in 200,000 facilities across 180 countries.

Against this background, Escape committed itself to developing something that would enable clubs to deliver superb group experiences, in addition to our existing range of training tools that work great in the studio. The prospect of reinventing the step was too good an opportunity to miss. Some 25 years after this form of exercise emerged, the time was right for something to bring it out of the 80s and into the modern fitness environment.

## RECRUITING AN EXPERT TEAM.

To create the very best platform solution, Escape Fitness commissioned a team of experts to help navigate through the development process and assist in the innovation of a new platform to meet the needs of today's consumer.

The first addition to the team was Steve Barrett. Steve is an independent product development consultant who has been involved in the creation of unique, innovative products for the likes of Reebok, Adidas and other blue chip fitness brands.

Our second appointment was the formation of a strategic partnership with Progressive Sports Technologies. They operate from the Sports Technology Institute at Loughborough University, the world's largest sports technology research group focused on mechanical and manufacturing engineering.

They have state-of-the-art laboratories and resources and long-term partnerships with leading brands including Nike, Puma, Adidas and Reebok.

## THE PRODUCT EMERGES.

The result of the collaborative approach is the STEP and RISER: a multi-configurable platform solution that can be used in step classes, bootcamps and for plyometric training. The ability to ramp the STEP allows for extensive programming options.

Key features of the STEP and RISER include:

- The widest stepping platform on the market.
- Dedicated points for using Resistance Tubes.
- Tread texture varies to accommodate increased grip or smooth torsion.
- A heat-welded top mat that will not come loose.
- Anatomical target zones for hands and feet.
- Unique secure locking system to keep platforms sturdy.
- Rubber stabilizing blocks to prevent the STEP and RISER slipping and to provide extra cushioning.
- A secure stacking system ensuring space-efficient storage.

## ZUMBA PARTNERSHIP.

The team at Escape wanted to do more than launch a new product. By getting involved in programming around the STEP and RISER, a full solution including product and programming can be offered, and clubs can make the most of the STEP solution as soon as it lands in studios.

One of the ways Escape is ensuring it is the very best programming available is by partnering with global group exercise force Zumba. Zumba Step is an important part of the company's programming. It combines the toning and strengthening power of step with the fun fitness-party experience that Zumba is known for.

# STEP PLATFORM SOLUTION.

Use a single STEP for classic step exercises, raise the height with RISERS for more challenge, or create an inclined platform for extra stepping options or bench work. Versatility is guaranteed and it's easy to switch between configurations mid-workout.

**TECH SPEC.**  
Both platforms are made from polypropylene that's strong yet allows a little 'give' for superb feel. It's also light enough to ensure excellent portability. The top mats and stabilizing blocks are made from anti-slip thermoplastic rubber, so even the fastest moves can be performed safely and confidently.

**DESIGN.**  
Eye-catching colors bring this studio favorite right up to date, with anatomic targets on the top mats for precise workouts. A unique locking system means that STEPs and RISERS fit together securely in multiple combinations.

**EXPERT TIP.**  
Don't just stick to one platform surface per person: use a number of STEPs and/or RISERS to encourage people to travel backwards, forwards and sideways from unit to unit. Get people to use their feet and hands on the platforms, and use the built-in resistance tube channels for whole-body workouts.

**ANATOMIC HOT SPOTS.**  
Precise targets as a guide for correct foot and hand positions, and to hit in combinations for endless variety and challenge.

**HEAT WELDED TOP MATS.**  
Instead of simply gluing the mats to the STEP and RISER they are attached via more robust heat welding for long-term performance.

**PATENT PENDING. REGISTERED DESIGN.**

STEP01	1 x Platform	\$85.00
STEP03	3 x Platform Pack	\$250.00
STEP04	Escape STEP (1 x Platform, 2 x RISERS)	\$146.00
STEP05	Escape STEP (1 x Platform, 4 x RISERS)	\$205.00
STEP07	STEP Club Pack (3 x Platform, 6 x RISERS)	\$420.00

Club Pack allows for a configuration of 1 RISER underneath each end of a STEP. RISERS can also be used with the STEP to create inclined platforms.

**SPECIFICATIONS.**  
STEP01: Size 4" x 17½" x 42". Weight 13.7 lbs.

01 STEP.

02 RISERS.

03 RISERS RAISING STEP.

04 RISERS RAISING STEP INTO INCLINE POSITION.

**LOCKING CONNECTORS.**  
Line up the red connectors and a firm push locks STEPs and RISERS securely together.

# THE ESCAPE RISER.

The Escape RISER takes the stepping scene up to the next level. Not only can it be used to increase the height of the STEP platform, but it can be used as a stepping platform in its own right. Wide enough to step on, but narrow enough to straddle – the RISER can be used to create dynamic workouts that get the user moving in all planes of motion.

For more information and to watch the Escape Step video, visit:  
[www.escapefitness.com/us/new-products/step](http://www.escapefitness.com/us/new-products/step)

STEP02	1 x RISER	\$31.50
STEP06	6 x RISER Pack	\$180.00

**SPECIFICATIONS.**  
STEP02: Size 4" x 17" x 17". Weight 4.1 lbs.

STUDIO.

## DECK 2.0.

The Deck 2.0 delivers superb versatility for step, circuits, BODYPUMP™ and bootcamps. With 16 possible configurations across Step, Ramp and Bench modes, it's the perfect tool for whole body individual workouts, and as the basis for group training programs.

### TECH SPEC.

The Deck 2.0 is packed with features to support performance: a top surface with hot spots and intelligent grip, strong steel tubing supporting the adjustable back rest, resistance tube channels, and integrated equipment storage.

### DESIGN.

The key to the Deck 2.0's versatility is its three modes. Step mode has low (8") and high (10") settings, Ramp mode adds a different step challenge, and Bench mode means you can incorporate lifting into workouts.

### TRAINING.

Escape's HIIT THE DECK group training program works for large groups, small groups, boutique studios and one-to-one PT. The package includes workout videos and templates, trainer education materials, and even the music you need for large group choreographed sessions. See **page 236** for details.

### 04 BENCH.

#### ANATOMIC HOT SPOTS.

Targets help guide users to where their hands and feet should be on every rep.

#### HEAT WELDED TOP MATS.

Robust heat welding secures the top mat for long-term durability.

#### INTELLIGENT GRIP.

Texture varies across the surface to match up with the demands of hands or feet in particular areas.

#### EQUIPMENT STORAGE.

This compartment is a great place to store equipment such as handweights and resistance bands for fast-paced changes between exercise styles.

#### ADJUST THE ANGLES.

Adjust the backrest through three different angles when using the Deck 2.0 in Bench mode.

# URETHANE REP SET.

Made from hard-wearing urethane, this rep set is guaranteed to stay looking good and deliver long-lasting results.

**TECH SPEC.**

Manufactured from high-quality urethane which makes these rep sets long-lasting and durable. The urethane end caps on the Hollow Bar help protect studio floors from damage if sets are dropped from a height.

**DESIGN.**

Vibrant, engaging colors make weight identification quick and easy, meaning minimal time is wasted when changing loads between sets. The Hollow Bar is strong and will not bend, even when more advanced members use heavier loads.

**STORAGE.**

To keep the Urethane Rep Sets tidy and easily accessible for members, store them on one of our dedicated racks. Choose between the 30 Rep Set Rack (ESC300RACKS) or a 10 Rep Set Rack (PARSR02).

<b>EST-PURWSET</b>	Urethane Rep Set	<b>\$210.00</b>
	2 x 2.75 lbs Urethane Plates – Pink	
	2 x 5.5 lbs Urethane Plates – Green	
	2 x 11 lbs Urethane Plates – Blue	
	2 x 1¼" Rep Set Clamp Collars with protective rubber inserts	
	1¼" Hollow Bar (pictured on the right) with urethane end caps to help protect flooring	
<b>EST-REPB</b>	Rep Set Bar	<b>\$28.00</b>
<b>EST-RRSCC</b>	SBX Rep Set Clamp Collar – Pair	<b>\$17.00</b>
<b>01. ESC300RACKS</b>	30 Rep Set Rack – Holds 30 Sets	<b>\$1,399.00</b>
<b>02. PARSR02</b>	10 Rep Set Rack – Holds 10 Sets	<b>\$245.00</b>

**RACK SPECIFICATIONS.**

**ESC300RACKS:** Size 56" x 30" x 68".

**PARSR01:** Size 63" x 25" x 30".

**Rep Sets not included with racks.**

STUDIO.

# URETHANE ECO REP SET.

The Urethane Eco Rep Set gives facilities an opportunity to bring extra environmental credentials to their offering, as it's made from 93% recycled material.

**PATENT**  
**PENDING.** **REGISTERED**  
**DESIGN.** **ECO**  
**FRIENDLY.**

**TECH SPEC.**

The plates are made via a unique manufacturing process, where discarded engine blocks are recycled into small shot beads and then blended with resin and urethane. The end result is a great combination of durability and environmental performance.

**DESIGN.**

The sleek, satin black urethane finish looks great and is tough and durable. It's kind to polished floors, which makes it an ideal choice for use in Group X studios. Bright green bar ends and clamp collars add a splash of color.

**STORAGE.**

To keep the Urethane Eco Rep Set in pristine condition and easily accessible for members, store them on a 10 Rep Set Rack (PARSR02).

<b>ECOSET</b>	Urethane Eco Rep Set	<b>\$155.00</b>
2 x 2.75 lbs Urethane Eco Plates		
2 x 5.5 lbs Urethane Eco Plates		
2 x 11 lbs Urethane Eco Plates		
2 x 1 1/4" Rep Set Clamp Collars with protective rubber inserts		
1 1/4" Hollow Bar with urethane end caps to help protect flooring		

<b>EST-REP8</b>	Rep Set Bar	<b>\$28.00</b>
<b>EST-RRSCC</b>	SBX Rep Set Clamp Collar - Pair	<b>\$17.00</b>

<b>PARSR02</b>	10 Rep Set Rack – Holds 10 Sets	<b>\$245.00</b>
----------------	---------------------------------	-----------------

**RACK SPECIFICATIONS.**

Size 63" x 25" x 30".

Eco Rep Sets not included with rack.

**WHAT'S 'ECO' ABOUT THE ECO REP SET?**

The unique process we use to manufacture the Eco Rep Set plates uses minimal urethane and 100% recycled steel. It also consumes less energy than traditional manufacturing methods – and ensures suitability for end-of-life recycling.

STUDIO.

## TRAINING PLACES.

### BACKGROUND.

The luxury Training Places villa on the Mediterranean island of Ibiza provides fitness breaks of the highest standard. Equipped with five bedrooms, pool and rooftop training space, Training Places shape everything to suit their guests. From nutritious menus to individualized training programs that combine workouts at the villa with cycling, scuba diving and other activities, each break has the perfect ingredients.

### THE PROJECT.

The rooftop fitness space caters for all areas of performance: functional, Olympic lifting, strength and freeweights, stretch and core, combat and cardiovascular. A great view over Ibiza Town is complemented by stylish products from Escape, including a TIYR, Quad Sled, Corebags, Kettlebells, Medballs, GRIPRs, Bulgarian Bags and Jump Ropes. Center-stage is an Octagon QUAD frame, with Monkey Bars, Dip Station and Pull-up Bars for bodyweight exercises, and facilities for Olympic lifting.

### RESULTS.

The rooftop space is a stunning place to train, providing guests with a truly unique and rewarding fitness experience. It's somewhere people just love to be, and they often take pictures and share them across their social media. Training Places gives gyms, studios and personal trainers the ability to bring their own clients and members for a fitness break, with all the logistics taken care of. There are also scheduled breaks for individuals, couples and small groups of friends. Either way, everyone who stays at the Training Places villa and uses the rooftop fitness space values both the unique setting and access to a fantastic range of innovative training tools.

### TESTIMONIAL.

Escape has given us the training tools we need to meet all our guests' fitness needs, from those who want to focus on health and wellbeing to those wanting performance and high intensity fitness. Our guests love the equipment and I know that Escape will continue to bring out innovative new products. I also know they have great customer service and will be there if I need support to maintain my rooftop space as a quality destination.

TOUGH,  
DURABLE  
AND STYLISH.

# URETHANE HANDWEIGHTS AND RACK.

These handweights are made from hard-wearing polyurethane and designed to be durable, impact absorbing and scratch resistant, meaning they will stay looking great for longer.

**TECH SPEC.**  
Urethane is comfortable on the hands and impact absorbing, so members can keep up their effort right until the last rep. The most durable handweight in our range.

**DESIGN.**  
These handweights have a triangular head so they are ideal for performing burpees, press-ups and rows with a stable foundation.

**STORAGE.**  
Keep the Urethane Handweights safe and tidy with the Handweight Rack, which holds 18 pairs.

<b>AEST-PUHW2</b>	2 lbs	PU Handweight – Pair – Purple	<b>\$26.00</b>
<b>AEST-PUHW4</b>	4 lbs	PU Handweight – Pair – Green	<b>\$36.00</b>

<b>ESC28RACKS:</b> Size 60" x 29" x 34". Weight 164 lbs.			
<b>Handweights not included with racks.</b>			

# STUDIO KETTLEBELLS.

Studio kettlebell workouts are very popular in health and fitness clubs, providing members with fun sessions that help them develop key functional training skills.

**TECH SPEC.**  
Our Studio Kettlebells are made to sit comfortably in the hand so members can concentrate on their workout. Cast iron construction with a vinyl dip covering means these kettlebells will last longer, but studio floors will also be protected.

**STORAGE.**  
Store the Studio Kettlebells on the Horizontal Rack, which holds a pair of each weight – 8, 16, 24, 32 and 40 lbs. If you want to mix kettlebells with other equipment, the RACK5 and the Cross Hub can store a full set on one shelf.

**TRAINING.**  
Get the very best from your kettlebells with the Kettlebell Instructor Training Course. This provides trainers and coaches with all the knowledge they need to implement key kettlebell exercises like the swing and the snatch  
Online training available: see **page 228** to find out more.

STUDIO.

# POWER TUBES.

**DESIGN.**  
A lightweight, color-coded design makes these perfect for busy studios or PTs on the go.

**TECH SPEC.**  
Our Power Tubes come in a standard length of 48" regardless of resistance level.

**STORAGE.**  
Keep your studio accessories tidy – use the Ammo Box to store this equipment (see **page 150**).

EST-PT1	Power Tube Level 01 – Pink	\$20.50
EST-PT2	Power Tube Level 02 – Green	\$22.50
EST-PT3	Power Tube Level 03 – Blue	\$24.50

# RESISTANCE TUBES.

**DESIGN.**  
Brightly color-coded to bring Group X experiences to life and for level recognition.

**TECH SPEC.**  
Sure-grip handles will not get slippery during tough workouts, so these bands are great for fast-paced studio sessions.

**STORAGE.**  
Keep your Resistance Tubes tidy – use the Ammo Box to store this equipment (see **page 150**).

EST-RTL1	Resistance Tube Level 01 – Pink	\$15.50
EST-RTL2	Resistance Tube Level 02 – Green	\$16.50
EST-RTL3	Resistance Tube Level 03 – Blue	\$17.50

# TRAINING BARS.

Training bars add weight and resistance to bodyweight exercises and are an effective introduction to weight training.

**DESIGN.**  
The Training Bars are the same length and diameter, regardless of weight – 49" x 1.5". A sleek, eye-catching design adds an outstanding experience to Group X sessions.

**EXPERT TIP.**  
Use these Training Bars to offer dynamic and lively group training classes to develop coordination and to mimic different movements like rowing and pressing.

**STORAGE.**  
Keep Training Bars tidy – use the Training Bar Rack (ESC18RACKS) to store your Training Bars and make them easily accessible for members.

EST-TB3	7 lbs	Training Bar – Pink	\$37.00
EST-TB4	9 lbs	Training Bar – Green	\$41.00
EST-TB5	11 lbs	Training Bar – Blue	\$47.00
ESC18RACKS	Training Bar Rack		\$775.00
ESCPAD	Individual Rubber Feet for Racks		\$5.50

**RACK SPECIFICATIONS.**  
Size 45" x 28" x 46". Weight 75 lbs.

Training Bars sold separately.

Rubber Feet not included.

# PRO BOUNDER.™

Specially manufactured for commercial use, the Pro Bouncer is safe, strong and fun. It features rubber bungees in place of steel springs for ultimate member safety and a smooth rebounding workout. Light enough to carry around your club, but durable enough for the demands of a busy gym, the Pro Bouncer adds bounce to any workout.

TECH SPEC.

Rubber bungees are used on the Pro Bouncer as they provide a smoother bounce than springs and are safer for users if they get hands or feet caught within the cords. For extra safety, the bungees are covered by a protective mat.

DESIGN.

The frame of the Pro Bouncer is an extremely strong steel tube, light enough to carry around but sturdy enough for even the most aggressive rebounding. Rubber bumpers act as 'feet' on the legs to ensure it does not move during fast-paced workouts.

EXPERT TIP.

Use the Pro Bouncer as part of circuits or bootcamps for a station that provides an effective cardio workout. Rebounding has physiological benefits, such as reduced stress on joints and boosted lymphatic drainage.

EST-REBOU	Pro Bouncer	\$210.00
SPECIFICATION.		
Size 45¾" x 12¼".

## HARBOUR CLUB NOTTING HILL.

BACKGROUND.

The David Lloyd name is synonymous with quality. With a string of nearly one hundred clubs around the country, clients have fallen for the David Lloyd look in a big way. But Notting Hill Harbour Club breaks the mold. It's one of David Lloyd's three Harbour Clubs – there's no house style here, and every opportunity to innovate. So when Escape got involved in transforming the Notting Hill Harbour Club functional zone, they did just that.

THE PROJECT.

Quickly establishing a good relationship, the Notting Hill team was quick to seize the opportunity to do something new with their fitness space. Together, they discounted the option of refitting the Club in the David Lloyd style, and seized on the opportunity to create a unique new space, complete with new equipment.

RESULTS.

Escape carried out a full redesign, installing storage, an HTS frame and BOA Rail with punchbags, supplemented by Bulgarian Bags and Core Momentum Trainers. Escape worked with the Harbour Club to train the trainers to use their CMTs and Bulgarian Bags effectively, and to deliver the Escape Fitness MOVE IT program for tailored high intensity training. Because it's such an all-inclusive program, with something to inspire and motivate people at every fitness level, it's a great fit for Notting Hill Harbour Club's clientele.

WHY ESCAPE?

We wanted to create an environment that would change the way members trained – and change our members' expectations of what effective training felt like. That's why we turned to Escape. We knew they could supply the latest equipment, and we knew our clientele would love their brand. We've already had some great feedback.

**Aleksejs Koselevs, Personal Trainer.**

# INCLINED PLYOSOFT BOX.

It started out as a individualized training tool, created in partnership with Best's Bootcamp. Now the 'Best's Box' is available to everyone as the Inclined Plyosoft Box. Doubling up as a plyometric station and weight training bench, the dual-purpose design is perfect for full-on studio workouts.

TECH SPEC.

The main box can be used on its own for plyometric exercises, where a soft construction contributes to user safety. The wedge piece attaches firmly with Velcro, providing a backrest for bench work. It's easy and fast to switch between the two settings, making it the ideal base for workouts with the fun and variety that's required for great studio and boutique experiences.

DESIGN.

The Inclined Plyosoft Box can be used at a height of 14" or 20" so it can be set-up depending on the user's ability or the nature of the exercise being performed. We've also designed it to be compact enough so that everyone in a studio workout can have their own box.

EXPERT TIP.

Combine a number of Inclined Plyosoft Boxes with a few functional tools to create your own unique studio programming. Start with some Octagon Dumbbells, throw in a few additional tools such as medballs and GRIPRs, and you're all set.

REMOVEABLE BACKREST.

When most plyo boxes are used as a bench they only allow the user to lie totally flat. But the Velcro-attached wedge section of the Inclined Plyosoft Box also enables bench work on an incline, so trainers and users can target certain muscles more precisely.

04 HIGH INCLINE.

01 LOW INCLINE.

02 INCLINE STEP.

03 PLYOMETRICS OR STEP.

CLUB BRANDING.

Your Inclined Plyosoft Box can be branded with your club logo - please contact us or your Escape representative for details of this custom option.

PLYOINC1 Inclined Plyosoft Box

SPECIFICATIONS.

Size 44.6" x 28" x 46.4". Weight 84 lbs.

## BEST'S BOOTCAMP.

BACKGROUND.

Scott Best and his team had a clear vision for Best's Bootcamp in London's Charing Cross, based on a stylish aesthetic and a desire to make the most of their space. The vision included group training that would blend platform-based exercises with the use of a range of functional training tools. A unique multi-functional platform was required, along with storage to enable members to reach out and grab the equipment they need.

THE PROJECT.

The studio's headline feature is the Best's Box - a safe, soft, mobile system for plyometric work and use as a weights bench. Escape took Best's initial ideas and came up with the design, which is a two-piece platform that offers great versatility. To fit in with a sleek design aesthetic, Escape also installed Cross Hub racking for space-efficient storage of the Escape product range including kettlebells, medicine balls and dumbbells.

RESULTS.

Best's Bootcamp has brought a fresh new feel to London's boutique scene. With a 360-degree trainer-cam, full studio lighting, and a resident DJ mixing new music - every day - Best's Bootcamp really ups the ante. Above all, Best's takes a highly personalized approach. Members get lots of hands-on attention from some of London's top trainers in tough but achievable workouts within a high energy, motivational atmosphere.

WHY ESCAPE?

We chose Escape because they are market leaders in the equipment they design and the functional equipment they supply. The Best's Box is a unique, market-leading design and it's got a multi-dimensional purpose. Every time they use it, people come up with something new to do. We've all used a plyo box before, but this is in a different class. People love the different heights and the soft cushioning is a really big plus.

Lee Drabble, Managing Director.

## B-BOX.

Fast transitions between sets are critical during workouts incorporating several training styles into each session. The B-BOX delivers an all-in-one training bench, plyo platform and equipment storage unit. It gives users instant access to the tools they need to maintain the pace during dynamic group sessions.

### CLUB COLORS.

The B-BOX drawers are available in different colors to match your brand. See page 152 for standard color options.

### TECH SPEC.

Based on the Rebel BOX, which has proven itself in thousands of sessions at 1Rebel, the B-BOX features the same steel construction for long-term strength and performance. It's topped with a vinyl covered foam pad for comfort.

### DESIGN.

Integrated into the design is rack shelving for six pairs of Escape Classic Steel Dumbbells. Two storage drawers take care of the other pieces of kit you want to use in workouts based around the box, such as Medballs, Resistance Tubes, Jump Ropes and GRIPRs.

### EXPERT TIP.

Storage for six pairs of dumbbells of varying weights means you can accommodate users of different abilities in a single session. You can also mix up a workout with a blend of cardio, strength and power exercises requiring a range of weights.

**PLEASE NOTE:** For B-BOX codes and prices please contact your sales representative.

### SPECIFICATIONS.

Size 53" x 18" x 16". Weight 127 lbs empty.

## 1REBEL.

### BACKGROUND.

High-end, stylish boutique health clubs with a polished, urban finish, 1Rebel have set the benchmark for boutique clubs in London. After the outstanding success of the first 1Rebel club at St. Mary Axe, the second club in Broadgate Circle opened just nine months later. One of the club's awesome programs is Reshape, and from its inception the aim was to base workouts around an innovative platform solution.

### THE PROJECT.

When 1Rebel founders identified the need for a multi-functional workout station, they asked Escape to help with the design and manufacturing. The result is the Rebel Box, a unique piece of equipment that can be used as a plyometric box or weights bench. It features storage for six pairs of dumbbells, as well as storage drawers for Medballs and Resistance Tubes.

### RESULTS.

The Rebel Box is the centerpiece of functional workouts that demand physical and mental intensity, bringing substance and results in fitness to the very heart of London. The cool equipment and interior is matched by lighting and pumping music that motivates participants throughout the highly intense Reshape sessions.

### WHY ESCAPE?

After James and I came up with the concept and idea of the Rebel Box, we could only think of one company who could bring our vision to conclusion, and within a very tight schedule. We have worked with Escape on many a project but none more important than this. The Rebel Box is a revolution in terms of design and simplicity, along with ensuring the customer has a slick and seamless interaction with high intensity training.

**Kevin Yates, Director and Investor, 1Rebel.**

## BOXING.

Punch, spar and jab towards a fighting-fit body. The popularity of combat and boxing training has grown significantly, and more clubs are offering this style of training as a way to shed the pounds and get fit. It lends itself perfectly to group training, and can attract more interest than standard cardio and high intensity workouts. So whether members are looking to increase their confidence and release their inner fighter, or if they're training for competition, the Escape Boxing range provides a knockout performance every time.

TRAINING GLOVES	186

PUNCHBAGS	192
FREESTANDING PUNCHBAG	194
UPPERCUT PRO PUNCHBAG	196
ACCESSORIES	197
JUMP ROPES	198

DEVELOPED  
FOR COMFORT,  
HYGIENE AND  
PERFORMANCE.

TRAINING  
GLOVES.

Gloves for pad or bag work need to be specially designed for the training environment and not the ring. That's why we created our range of Training Gloves and Punch Mitts. These gloves have the right blend of durability and usability: light but strong, and firm on the strike zone but cushioned on the palm. They also feature Velcro wristbands (Training Gloves) or an elasticated closing system (Punch Mitts) to speed up fitting and removal – perfect when used in workouts that blend a variety of exercises.

TECH SPEC.

These Training Gloves feature mesh panels to improve air flow and keep users' hands cool. This also helps the gloves dry more quickly after use. The injection molded, one-piece padding helps to absorb impact more effectively than traditional PVC gloves.

DESIGN.

The Training Gloves are available in three different sizes – 8oz, 10oz and 12oz – and the Punch Mitts weigh in at 12oz. Green, red and black gloves give a splash of color, but still maintain a professional feel for training sessions.

EXPERT TIP.

These gloves are ideal for introducing boxing training to your club when used with both punchbags and partner pad work. Incorporate running and jump rope moves into these sessions to give members a true test of a boxing training session that packs a punch.

EBOX-MM	12oz	Punch Mitts – Green	\$22.50
EBOX-TG8G	8oz	Training Gloves – Green	\$50.00
EBOX-TG10R	10oz	Training Gloves – Red	\$50.00
EBOX-TG12B	12oz	Training Gloves – Black	\$50.00

BOXING.

# BOA MITT.

Put these mitts on at the start of the workout and keep them on all the way to the end. Thanks to their open-palm design, there's no need to remove them when switching between bag work and handling functional training tools. They bring an authentic feel to any combat training session, but really come alive when used in a fusion of combat and functional training.

**TECH SPEC.**  
At a weight of 8oz per mitt, these are noticeably lighter than regular boxing gloves at 12-16oz, and put hands into a more natural position than gloves. So as well as being great for blended combat/functional workouts they are ideal for people getting into punchbag-based exercise.

**DESIGN.**  
The fingerless design used by MMA fighters for grappling is just as useful for functional training. Hit a punchbag, do a push-up, swing a kettlebell and lift some dumbbells, all without having to remove the BOA Mitts.

**EXPERT TIP.**  
Encourage members to embrace MMA training within your club by selling them their own pair of BOA Mitts. This can be done as part of a training/equipment package for group classes or individual training sessions.

MITT001	BOA Mitt - Medium	\$32.00
MITT002	BOA Mitt - Large	\$32.00

# CURVED HOOK AND JAB PADS.

Designed to test your accuracy, these pads provide a target to hit and fine-tune your combinations. The dual-density palm pads ensure that it's the pads that take the beating and not the hands.

**TECH SPEC.**  
Individual finger placement allows you to spread your hand wide to absorb punches.

**DESIGN.**  
The ergonomic grip in the center of the palm helps absorb the force of each punch, so users can withstand prolonged sessions with the pads doing the hard work, and not the hands.

**EXPERT TIP.**  
Take time to teach your members how to correctly use the pads to prevent injury and to ensure the boxer gets an effective workout.

**EBOX-CHJP** Curved Hook and Jab Pads – Pair \$41.00

**SPECIFICATION.**  
Size 3" x 8".

**EASY CLEAN, HYGIENIC TECHNOLOGY.**

**PERFORMANCE  
EVEN FOR  
THE MOST  
AGGRESSIVE.**

## THAI BAG.

The Thai Bag is our first full-length bag for workouts in Muay Thai and MMA styles incorporating punches, elbows, kicks and knees. A great fit for any MMA boutique or combat focused space within a club, it performs brilliantly for developing endurance, rotational power and overall conditioning.

**D1 TOUGH GTEX SURFACE.**

**D2 CORE STABILITY CELLS.**

**D3 HIGH-DENSITY OUTER FOAM.**

### TECH SPEC.

The core of the Thai Bag comprises dense rebounded foam, identical to the Escape Focus Pro Punchbag. This premium quality material has been selected from several options for its ability to maintain its shape and protect users during heavy workout routines.

### DESIGN.

The bag is covered in a non-slip material, reflecting the benefits of making an impactful connection with each hit. There's also a loop attached to the base, enabling it to be tied securely in place. Preventing the bag from swinging allows for a faster, more powerful and ultimately more intense workout.

### EXPERT TIP.

Technique is paramount when using the Thai Bag, so it should be the first goal when entering into combat training. Once perfected, results will be enhanced, injury will be avoided and it will be time to rev up the power with every jab, kick and hook.

<b>THAI01</b>	Thai Bag	<b>\$795.00</b>
Size 65" x 13 3/4". Weight 154 lbs.		
Punchbag Swivel and Chains are available, please call for details.		

# PRO PUNCHBAG.

Our Pro Punchbag is for the biggest hitters, larger in diameter and shorter in length than our other bags. It's the classic formula that's perfect for specialist boxing clubs and other facilities where bags take maximum punishment.

**TECH SPEC.**  
The double-layered canvas is made from GTEX, a synthetic leather material that is incredibly tough and resilient, yet also forgiving to users' hands.

**DESIGN.**  
Core stability cells work with the outer foam to help maintain the bag's shape. They also contribute to a realistic feel – serious boxers get a sensation that's very close to real fight conditions.

**EXPERT TIP.**  
Choose this bag if you want to give your members a realistic, serious boxing experience. The high density outer foam is designed to stay in place, which is a dramatic improvement over inferior alternatives that sag over time.

EPPBV3	Pro Punchbag	\$615.00
Size 18" x 47". Weight 90 lbs.		
Punchbag Swivel and Chains are available, please call for details.		

# FOCUS PRO PUNCHBAG.

Narrower and longer than the Pro Punchbag, the Focus Pro is a great all-round bag. The increased vertical surface area and number markings make it perfect for technique drills and punch combinations, giving the user a visual target to aim for.

**TECH SPEC.**  
The flexibility of the central 'spine' of this bag is crucial. Just as a human torso flexes when it is punched, so too do our Pro and Focus Pro Punchbags.

**DESIGN.**  
The GTEX surface features target zones that are vital for serious boxers who want to improve their accuracy and develop their coordination in punch combinations.

**EXPERT TIP.**  
To reduce the risk of injury to users, it is advisable to choose a punchbag that will retain its shape. The Focus Pro Punchbag has been designed specifically to retain its shape at all times.

FHPBV3	Focus Pro Punchbag	\$640.00
Size 14" x 51". Weight 143 lbs.		
Punchbag Swivel and Chains are available, please call for details.		
<b>REPLACEMENT CARABINER HOOKS.</b>		
CARA001	0.3" Carabiner Hook	\$7.50
CARA002	0.4" Carabiner Hook	\$9.00

# NO NEED FOR WALL FIXINGS: THIS BAG WORKS ANYWHERE.

[www.escapefitness.com/us/video](http://www.escapefitness.com/us/video)

## FREESTANDING PUNCHBAG.

For technique development, movement drills and conditioning, this bag delivers. Its light weight and two-part design makes it ideal for use as a station in a circuit as it can be easily moved into position and back again. It's also the bag of choice for clubs who are unable to securely fasten a hanging bag to a wall or ceiling.

**01 TOUGH GTEX OUTER COVER WITH TARGET ZONES.**

**02 HIGH-DENSITY INNER FOAM.**

**03 TWO PARTS FOR EASY TRANSPORTATION.**

**04 PRE-WEIGHTED 99 LBS BASE.**

### TECH SPEC.

This technique bag features a special formulation foam base that is stronger and more resilient than plastic alternatives. Plus, it can be moved around the club so you can develop programming anywhere on the gym floor.

### DESIGN.

Marked target zones give clients something to aim for and make programming easier. The Freestanding Punchbag comprises two parts that can be separated for easy transportation and storage.

### EXPERT TIP.

This punchbag should be used for boxing only – it is not designed for kicking.

<b>EBOX-FSPB1</b>	Freestanding Punchbag	<b>\$970.00</b>
Size 29" x 72". Weight 156 lbs.		
<b>EBOXRT1</b>	Replacement Tube	<b>\$360.00</b>
Size 14" x 72". Weight 57 lbs.		
<b>RE-21422</b>	Replacement Base	<b>\$610.00</b>
Size 29" x 20". Weight 99 lbs.		

BOXING.

## UPPERCUT PRO™ PUNCHBAG.

Our Uppercut Pro Punchbag has had a makeover but it's still as tough as ever. This 3-in-1 bag means users can simultaneously work on punching technique, hand-eye coordination and perfecting those all-important uppercuts.

**TECH SPEC.**

Precise construction and tough materials ensure this bag won't split or break down with use.

**DESIGN.**

The oversized design of this 3-in-1 bag offers the ultimate destination to practice a variety of punches. It can be included in functional circuits for conditioning or with serious boxers to work on a variety of techniques at a single punchbag station.

**EXPERT TIP.**

Team the Uppercut Pro Punchbag with either the Pro or Focus Pro Punchbag to provide members with everything they need to get the most out of their boxing-style training sessions.

<b>EBOX-UCPB</b>	Uppercut Pro Punchbag	<b>\$250.00</b>
Size 20" x 41". Weight 81 lbs.		

Punchbag Swivel and Chains are available, please call for details.

## WALL BRACKET.

This heavy-duty wall bracket with integrated swivel has been designed for use with bags up to 143 lbs. The heavy-steel support frame reduces vibration. To optimize bracket performance it must be used with the shock spring supplied.

<b>BBK20510</b>	Wall Bracket	<b>\$340.00</b>
<b>BBK20510/SAE</b>	Wall Bracket Spare Swivel Assembly	<b>\$70.00</b>

**SPECIFICATIONS.**

**BBK20510:** Size 41" x 23" x 34".

## SPEED BALL AND PLATFORM.

Escape's Speed Ball Platform is durable enough to withstand the demands of heavy use club environments. Heavy-steel support bars prevent vibration associated with lighter platforms.

**TECH SPEC.**

The swivel mechanism is essential to the experience of using the Speed Ball: ours is precision engineered using high quality precision thrust and roller bearings.

**DESIGN.**

Changing the height of the platform is easy, so it can be quickly set at the optimum position for each user.

**EXPERT TIP.**

Hitting a speedball requires a different technique to punchbag work. The hands will be in a more open position and kept close to the ball in order to generate more speed.

<b>BBK20500</b>	Speed Ball Platform	<b>\$695.00</b>
Size 24" x 18" x 34".		
<b>BBK20500/SA</b>	Speed Ball Platform Spare Swivel	<b>\$90.00</b>
<b>EBOX-SB</b>	Speed Ball	<b>\$36.00</b>

# LEATHER JUMP ROPE.

Thicker and heavier for a gruelling upper body workout. This rope will take pride of place in the workouts of boxers and martial arts athletes.

DESIGN.	TECH SPEC.	TESTING.
A heavier and thicker rope – the Leather Jump Rope is perfect for specialist combat and boxing gyms.	The weight of the rope means the user has to work the upper body and the arms, which gets the heart racing.	The Leather Jump Rope is stress tested to 50,000 rotations to ensure maximum durability.

EST-SRL	Leather Jump Rope - Length 118"	\$30.00
---------	---------------------------------	---------

# FITNESS JUMP ROPE.

The ideal rope for introducing members to jump rope training. This rope is also up to the task of giving more advanced users a tool to improve coordination and raise their heart rate.

DESIGN.	EXPERT TIP.	TESTING.
A lightweight rope that is a true all-rounder – ideal for PTs who are on the go or for incorporating into group training sessions.	A great tool to improve endurance, coordination and timing. Up the speed as technique improves.	This rope is stress tested to 50,000 rotations so it will stand up to your members' toughest workouts.

EST-ROPE5	Fitness Jump Rope - Length 114"	\$21.00
-----------	---------------------------------	---------

# CROSS TRAINING JUMP ROPE.

High jumping meets high performance. The ideal rope for serious CrossFitters to perfect double-unders due to its roller-bearing handles and ultra-lightweight rope.

DESIGN.	EXPERT TIP.	TESTING.
Designed with passionate CrossFitters in mind, this ultra-thin rope is ideal for perfecting double-unders.	Use jump ropes with members or clients who want to tone up and build muscle. This exercise provides a complete body workout.	Stress tested to 50,000 rotations – the bearings in this rope will ensure smooth and speedy rotations.

EST-ROPE3	Cross Training Jump Rope - Length 116"	\$29.00

# HOW TO CHOOSE.

## 01 YOGA MAT.

This mat features a centered dotted line for guidance, which makes it the ideal mat for beginners.

## 02 ECO YOGA MAT.

This Eco Yoga Mat has a safe and grippy surface, and is produced with the environment in mind. Latex foam, anti-slip base.

## 03 CORE MAT.

A hard-wearing, easy-to-clean and hygienic mat that is perfect for studio work.

## 04 FLEX MAT.

A high-grip, textured surface featuring a fast-acting memory foam that returns quickly to its original shape for a more comfortable mat.

## 05 MULTI MAT.

PVC covering and compound foam create an easy-to-clean, versatile and comfortable mat that is at home in any studio.

FLEXIBILITY.

# YOGA MAT.

Our Yoga Mat is made from compact foam and has been designed to allow for more grip and comfort when performing yoga moves.

**TECH SPEC.**  
The material used for the Yoga Mat is chosen for its excellent grip, comfort and easy-clean properties.

**DESIGN.**  
The mat features a central white positioning guide for hand and feet alignment.

**STORAGE.**  
Store the Yoga Mats on the Freestanding Mat Storage Rack or the RACK5 Mat Attachment (page 207) to keep your studio mats in top condition.

YMAT01	Yoga Mat – Black	\$25.00
<b>SPECIFICATION.</b> Size 72" x 24" x ½".		

Eyelets for hanging on Escape's mat storage racks.

# ECO YOGA MAT.

Our Eco Yoga Mat is toxin-free so has good environmental credentials. This is primarily a yoga mat but, given its premium look and feel, can be used for other stretching-based work too.

**TECH SPEC.**  
Toxin-free construction helps protect the environment from hazardous chemicals. Latex foam, anti-slip base.

**DESIGN.**  
Offers the user a safe and stable foundation on which to enjoy and develop their yoga with a sure grip-surface.

**STORAGE.**  
Store the Eco Yoga Mat on the Freestanding Mat Storage Rack or the RACK5 Mat Attachment (page 207) to keep your studio mats in top condition.

EST-EYMAT	Eco Yoga Mat – Pink	\$47.00
<b>SPECIFICATION.</b> Size 72" x 24" x ¼".		

Eyelets for hanging on Escape's mat storage racks.

# YOGA BLOCK AND STRAP.

**YOGA BLOCK.**  
Developed for heavy use, our Yoga Block is made from high-quality foam and is heavier, stronger and will last longer than most lightweight alternatives.

**YOGA STRAP.**  
The Yoga Strap allows users to achieve those hard-to-reach yoga positions. It will stay in place thanks to the robust buckle that securely holds the strap at the right length.

EST-YOGB	Yoga Block – Pink	\$12.50
EST-YOGS	Yoga Strap	\$4.00
<b>SPECIFICATIONS.</b> EST-YOGB: Size 9" x 5½" x 3". EST-YOGS: Size 67½".		

# CORE MAT.

Whatever your exercise needs – stretching, mind, body and balance – this specially formulated non-slip foam mat is perfect.

- TECH SPEC.**  
Welded and laminated foam and PVC cover is easy-to-clean and has eyelets for safe and hygienic storage.
- DESIGN.**  
The cool anthracite color will provide your studio with a calm and relaxed atmosphere for effective core and group training workouts.
- STORAGE.**  
Store the Core Mat on the Freestanding Mat Storage Racks or the RACK5 Mat Attachment (page 207) to keep your studio mats in top condition.

<b>EST-CMATA</b>	Core Mat – Anthracite	<b>\$34.00</b>
<b>EST-CMBLU</b>	Core Mat – Blue (while stocks last)	<b>\$35.00</b>
<b>SPECIFICATION.</b> Size 40" x 20" x ¾".		

Eyelets for hanging on Escape's mat storage racks.

# FLEX MAT.

Two-sided, multi-purpose, non-marking base with a high-grip surface that has been designed specifically to provide extra comfort and grip, ideal for Pilates and stretching.

- TECH SPEC.**  
Fast-reacting memory foam quickly returns to its original shape so you can work out without stopping to rearrange your mat.
- DESIGN.**  
The Flex Mat is more than three times thicker than a regular yoga mat, with a specially formulated non-slip base.
- STORAGE.**  
Store the Flex Mat on the Freestanding Mat Storage Rack or the RACK5 Mat Attachment (page 207) to keep your studio mats in top condition.

<b>EST-FMGRY</b>	Flex Mat – Anthracite	<b>\$45.00</b>
<b>SPECIFICATION.</b> Size 72½" x 24" x ¾".		

# FREESTANDING MAT STORAGE.

These sleek multi-mat storage racks are suitable for all Escape mats with eyelets, keeping them safe, dry and tidy when not in use.

- 01 FREESTANDING MAT STORAGE RACK**  
Store up to 140 mats with this stylish storage solution.

<b>01. ESC6RACKS</b>	Freestanding Mat Storage Large	<b>\$825.00</b>
This rack can store up to: 96 x Yoga Mats, 140 x Eco Yoga Mats, 48 x Core Mats or 48 x Flex Mats.		
<b>02. RACK5B5</b>	RACK5 Mat Attachment (RACK5 sold separately)	<b>\$44.00</b>
This rack can store up to: 65 x Yoga Mats, 65 x Eco Yoga Mats, 25 x Core Mats or 25 x Flex Mats.		
<b>SPECIFICATIONS.</b> <b>ESC6RACKS:</b> Size 79" x 28" x 29". Weight 101 lbs. <b>RACK5B5:</b> Size 15¾" x 4¼" x 14".		
<b>ESCPAD</b>	Rubber Protector Feet for Racks	<b>\$5.50</b>

- 02 RACK5 MAT ATTACHMENT**  
Can easily be attached to the RACK5 (sold separately) or mounted on to a wall. For more information on the RACK5 see page 36.

**PLEASE NOTE:**  
Racks are shown storing the Flex Mat, Core Mat and the Eco Yoga Mat. Rubber Feet not included.

FLEXIBILITY.

# MULTI MAT.

A long-lasting, hard-wearing stretch mat. Available in two colors, it's durable enough for the rigours of everyday use and versatile enough to suit most applications.

**TECH SPEC.**  
The PVC covering with compound foam and polyurethane granules provides extra durability and comfort for the user.

**DESIGN.**  
These multi-purpose mats are designed for stretching, balance, massage and light floor exercises.

**EXPERT TIP.**  
As well as on the gym floor, have some of these mats available in the studio for bodyweight exercises in circuits and bootcamp sessions.

MULTI MAT LARGE.		
M0022B	Multi Mat Large – Black	\$195.00
M0022	Multi Mat Large – Gray	\$195.00

**SPECIFICATIONS.**  
M0022: Size 79" x 39" x 1".

**PRODUCT TRAINING AVAILABLE.**  
For more information and to order your online Product Training Workshop, visit:  
[www.escapefitness.com/training](http://www.escapefitness.com/training)

# RIDGE ROLLER.

Cool looking yet brilliantly effective, the Ridge Roller mimics the pressure applied by a sports therapist's hands.

**TECH SPEC.**  
The textured surface offers superb feel, allowing the user to apply significant but bearable amounts of pressure on both muscle and fascia for a true pain/pleasure experience.

**EXPERT TIP.**  
Use the Ridge Roller to improve mobility in joints and to relieve muscles after strenuous training sessions.

**TRAINING.**  
The Self Myofascial Release with Foam Rollers Product Training Workshop will provide instructors and PTs with the knowledge they need to implement foam rollers correctly and effectively.  
Online training available: see **page 228** to find out more.

EST-RRC	Ridge Roller	\$45.00
<b>SPECIFICATION.</b> Size 15" x 5½".		

FLEXIBILITY.

# ULTRAFLEX ROLLER.

With a perfectly proportioned size and diameter for maximum comfort, the Ultraflex Roller delivers a massage to keep limbs supple. The ultimate treatment for reviving tired muscles, with tough, non-porous material that's resistant to dirt but still easy to wipe down.

**TECH SPEC.**  
Made from tough urethane, this roller won't bend or sag and the tough durable material is resistant to dirt and easy to wipe down.

**DESIGN.**  
The pimples on the surface of the Ultraflex Roller stimulate blood flow for effective self myofascial release.

**TRAINING.**  
The Self Myofascial Release with Foam Rollers Product Training Workshop will provide instructors and PTs with the knowledge they need to implement foam rollers correctly and effectively. Online training available: see **page 228** to find out more.

EST-HFR	Ultraflex Roller – Green	\$48.00
EST-SFR	Ultraflex Soft Roller – Purple (while stocks last)	\$48.00
<b>SPECIFICATION.</b> Size 18" x 5½".		

# UBERSOFT ROLLER.

This roller allows beginners to achieve greater muscle flexibility and can also be used to improve their balance. It's great for easing tension and tightness after workouts with a light, forgiving massage.

**TECH SPEC.**  
Low-density foam provides a forgiving surface, ideal for those new to foam rolling.

**FLOORING.**  
Use the Ubersoft Roller on Escape Flexi-Soft flooring for a comfortable rolling experience (see **page 223**).

**TRAINING.**  
The Self Myofascial Release with Foam Rollers Product Training Workshop will provide instructors and PTs with the knowledge they need to implement foam rollers correctly and effectively. Online training available: see **page 228** to find out more.

USR001	Ubersoft Roller – Gray	\$52.00
EST-LRRS	Ubersoft Roller – Blue (while stocks last)	\$51.00
<b>SPECIFICATION.</b> Size 35½" x 6".		

# MAX BALL.

The Max Ball has been specifically designed for strength training. The dimpled, non-slip surface prevents the ball from slipping when using heavy weights.

MAXBAL55	22" / 55cm	Max Ball – Anthracite	\$105.00
MAXBAL65	25" / 65cm	Max Ball – Gold	\$125.00
All Max Balls have a 1,650 lbs burst resistance.			

# DURA-BALL PRO.

The Dura-Ball Pro is a great all-around ball that's perfect for stretching, core stability, abdominal and flexibility work.

DURA65	25" / 65cm	Dura-Ball Pro – Black	\$80.00
All Dura-Ball Pros have a 1,100 lbs burst resistance.			

# DUAL ACTION PUMP.

Our Dual Action Pump delivers a capacity of 140 liters at 100 strokes per minute – an essential item to have at your disposal.

MG-33	Dual Action Pump	\$27.00
Height 18". Weight 1.7 lbs.		

FLEXIBILITY.

# STEADYBALL.™

Designed specifically for core stability and balance work. The unique, safe and stylish two-tone Steadyball has self-levelling technology which means it won't roll away.

**TECH SPEC.**

Our balls are made from anti-burst foam PVC, so there is little risk of sudden deflation. Plus they're fully tested with a safe maximum user weight of 242 lbs.

**FLOORING.**

Use the Steadyball on Escape Flexi-Soft flooring to protect hands and knees, and to keep the ball in top condition (see page 223).

**STORAGE.**

Keep Steadyballs tidy with the STAKR™ Rings or the 9 Ball Storage Rack.

EST-GB55	22" / 55cm	Steadyball – Purple	\$31.00
EST-GB65	25" / 65cm	Steadyball – Green	\$36.00
EST-GB75	28½" / 75cm	Steadyball – Blue	\$41.00

# GYM BALL STORAGE.

The 9 Ball Rack is a robust steel tube storage solution that can hold your Steadyballs safely. Or when you're short of space, STAKR™ Rings provide the perfect storage solution.

EST-GBSR	STAKR Ring – Each	\$10.00
9GBR	9 Ball Storage Rack	\$515.00

**RACK SPECIFICATION.**

Size 69" x 51" x 51".

Steadyballs sold separately.

FLEXIBILITY.

# FEATURE FLOORING.

The gym floor is unlike any other piece of equipment, because it's put through its paces all day, every day. That's why it's just as important as a club's other training tools. Clubs are increasingly looking for flooring that adds some style, color and vibrancy to the ambience of the facility. And of course, it should also be carefully chosen to support and protect the club's members, and reduce the stress placed on equipment. We've taken all of these factors into consideration to perfect a quality range of flooring options.

### INDUSTRY-LEADING TECHNOLOGY.

Across the Escape range, there is flooring that will keep pace with users engaged in a variety of training styles, no matter what is thrown at it. High quality materials make it a durable, long-lasting and effective investment. Our flooring systems offer athletic benefits to end users, protecting their ankles, knees and hips in areas that may involve high impact, plyometric or aerobic training. The materials used include elastomers that adapt to the foot, reducing the risk of injury to members and instructors.

### CREATING SUPERB TRAINING ENVIRONMENTS.

We have dedicated, specialist flooring for every facility's needs – from functional training, free weight areas, sprint tracks and stretching spaces. Let's not forget also that the right flooring can add a huge 'WOW' factor to clubs, transforming workout areas from uninspiring places to breathtaking spaces.

### LET'S SUPPORT YOUR PERFECT FLOORING INSTALLATION.

With several flooring options from which to choose, making the right decision isn't always straightforward. That's why our flooring specialists are here to help you choose products and colors that reflect your unique needs, in terms of performance and aesthetics. The team will work closely with you to assess and choose the flooring that meets your facility's needs, making sure you stand out from the competition.

## FLOORING.

Fitness flooring can support the successful running of a club in several ways, from separating floor space into different zones to protecting members and equipment during workouts. Specialized options like line markings, speed tracks and free weight flooring make a big contribution to the ability of everyone in the gym to perform at their best. Escape uses years of gym experience and technical knowledge to provide the right specialist flooring for clubs that demand the best performance from their investment.

SHOCKTURF	218
SPEED TRACKS	220
FLEXI-TUF	222
FLEXI-SOFT	223
FLEXI-HARD	224

## SHOCKTURF.

This new-generation synthetic turf flooring has been specifically developed for functional training environments, both indoors and outdoors. It's a true heavy duty product that has consistently performed brilliantly in wear and resistance tests.

Escape recognized the increasing popularity of turf flooring within clubs. But we also noticed that, too often, the standard turf products used weren't suitable for functional training. In many cases these products simply didn't provide enough cushioning to joints and provided little protection to the floor underneath. They were also frequently made from a substandard material that can melt under friction from sleds.

We wanted to solve these issues, so we worked with one of the USA's biggest producers of turf products to develop a product specifically for use in a functional training facility or area. The result is Shockturf, and it's proving its quality in clubs, including with top athletes as a surface for developing mobility, balance and explosive power.

### USAGE.

This is superb multi-purpose performance flooring for functional training areas, with the properties essential for jumping, bounding, lifting, sprints, agility training, TIYR flips and sled pushes.

### DESIGN.

Available in six standard colors: black, green, orange, red, slate and tan. Escape can create individualized zones and layouts.

### PERFORMANCE.

This product has an especially high melting point, so there is no risk of fast or heavy sled pushes melting the glass fibers. An added foam pad layer helps to reduce the shock users feel when training.

<b>STURFB</b>	Shockturf - Black	■	<b>\$3,000.00 per roll</b>
<b>STURFG</b>	Shockturf - Green	■	<b>\$3,000.00 per roll</b>
<b>STURFO</b>	Shockturf - Orange	■	<b>\$3,000.00 per roll</b>
<b>STURFR</b>	Shockturf - Red	■	<b>\$3,000.00 per roll</b>
<b>STURFS</b>	Shockturf - Slate	■	<b>\$3,000.00 per roll</b>
<b>STURFT</b>	Shockturf - Tan	■	<b>\$3,000.00 per roll</b>

### SPECIFICATION.

Roll Size 40ft x 6ft.

**Price shown is per roll and the minimum order quantity is 2 rolls.**  
Line markings and logos are available – please call for details.

To watch the Speed Track video, visit:

[www.escapefitness.com/us/flooring-range/speed-track](http://www.escapefitness.com/us/flooring-range/speed-track)

## SPEED TRACK.

Our Speed Track provides the perfect basis for agility and explosive power training, including with the Escape TIYR and Quad Sled. Bring an outdoor feel to the center of your gym and create a visually stunning environment to inspire members.

### USAGE.

This multi-use surface provides the right levels of grip for sprint work, while offering perfect resistance for sled work.

### TECH SPEC.

The four-way loop pile has a high melting point, perfect for heavy sled work.

### INSTALLATION.

Once installed there is practically no maintenance required, making this a cost-effective solution.

<b>AGRASS10</b>	5' x 33' Speed Track	<b>\$7,400.00</b>
<b>AGRASS12</b>	5' x 40' Speed Track	<b>\$8,100.00</b>
<b>AGRASS15</b>	5' x 49' Speed Track	<b>\$9,050.00</b>
<b>AGRASS20</b>	5' x 66' Speed Track	<b>\$10,700.00</b>

Please call for color options and installation details.

To watch the Portable Speed Track video, visit:

[www.escapefitness.com/us/flooring-range/portable-speed-track](http://www.escapefitness.com/us/flooring-range/portable-speed-track)

## PORTABLE SPEED TRACK.

The Portable Speed Track offers the same benefits as the Speed Track but in a portable format. Members and their trainers can reap the benefits of a speed track without a permanent installation.

### USAGE.

Use the Portable Speed Track for sprint training, sled work, TIYR flips and pushes and a variety of other drills.

### TECH SPEC.

Facilities do not have to install a permanent track to benefit from speed training. The Portable Speed Track can be easily rolled out, used for training sessions and packed away after use.

### DESIGN.

The Portable Speed Track is available in a variety of lengths and colors to suit the individual needs of any club.

<b>APORTST10</b>	5' x 33' Portable Speed Track	<b>\$7,900.00</b>
<b>APORTST12</b>	5' x 40' Portable Speed Track	<b>\$8,600.00</b>
<b>APORTST15</b>	5' x 49' Portable Speed Track	<b>\$9,650.00</b>
<b>APORTST20</b>	5' x 66' Portable Speed Track	<b>\$11,400.00</b>

Please call for color options and installation details.

## FLEXI-TUF.

Flexi-Tuf is a heavy-duty and flexible floor covering that will ensure your free weights and floor are protected from damage and marking.

### USAGE.

Ideal for free weight areas and spaces where rigorous functional training will take place.

### DESIGN.

Unique, small, interlocking tiles are easily lifted. Textured surface provides sure footing for maximum confidence during workouts.

### INSTALLATION.

Easy installation means it's easy to create islands of flooring for specific areas. Transport and re-use wherever you wish. Corners and edges provide smooth ingress and egress.

<b>MATCHB12</b>	Flexi-Tuf Floor Tile	<b>\$4.50</b>
<b>MATES12</b>	Flexi-Tuf Edge Strip	<b>\$11.00</b>
<b>MATFT12</b>	Flexi-Tuf Corner Piece	<b>\$34.00</b>

### SPECIFICATION.

**MATCHB12:** Size 20" x 20" x 1/2".

**MATES12:** Size 20" x 7 1/2" x 1/2".

**MATFT12:** Size 7 1/2" x 7 1/2" x 1/2".

Price is per tile and does not include fitting.

## FLEXI-SOFT.

Soft and slip-resistant modular flooring system for stretching, gym balls and foam rolling. Ideal for yoga studios.

### INSTALLATION.

Quick to lay and the tapered edge strip reduces risk of injury. The tiles do not need to be fixed to the floor, allowing them to be easily moved for greater flexibility of layouts.

### PROTECTIVE.

Absorbs impact while being comfortable for stretching exercises thanks to their dense foam composition. They are also very easy to clean.

### DESIGN.

Color contrasting edges and corners are tapered to prevent tripping and allow safe entry and exit on and off the mat.

<b>MAT510S</b>	Flexi-Soft Foam Colored Tile	<b>\$105.00</b>
<b>MAT511S</b>	Flexi-Soft Foam Colored Edge Strip	<b>\$33.00</b>
<b>MAT512S</b>	Flexi-Soft Foam Colored Corner	<b>\$6.50</b>

### SPECIFICATION.

**MAT510S:** Size 39" x 39" x 3/4".

**MAT511S:** Size 39" x 7 1/4" x 3/4".

**MAT512S:** Size 7 1/4" x 7 1/4" x 3/4".

Price is per tile and does not include fitting.

### AVAILABLE IN FOUR COLORS.

## FLEXI-HARD.

Durable, cushioned flooring for balance exercises, light dumbbell workouts and strength training.

### DESIGN.

Designed for PT and functional training areas. The tiles can be interlocked in minutes and don't need to be fixed to the floor.

### USAGE.

Ideal for balance and lightweight exercises with free weights up to a maximum of 44 lbs. For heavier weights we would recommend Flexi-Tuf – see [page 222](#).

### PROTECTIVE.

A good base support with an element of cushioning.

<b>MAT510</b>	Flexi-Hard Foam Colored Tile	<b>\$115.00</b>
<b>MAT511</b>	Flexi-Hard Foam Colored Edge Strip	<b>\$36.00</b>
<b>MAT512</b>	Flexi-Hard Foam Colored Corner	<b>\$8.00</b>

### SPECIFICATION.

**MAT510:** Size 39" x 39" x ¾".

**MAT511:** Size 39" x 7¼" x ¾".

**MAT512:** Size 7¼" x 7¼" x ¾".

Price is per tile and does not include fitting.

### AVAILABLE IN FOUR COLORS.

## UNIVERSITY OF GEORGIA.

### BACKGROUND.

University of Georgia (UGA) comprises 17 schools and colleges attended by more than 36,000 students. There is huge interest in fitness among the student body and the faculty, which has fuelled extensive renovations and improvements to UGA's Ramsey Student Center. Part of this program was the transformation of an underused martial arts studio into a new functional training room, as a positive response to the growing demand for functional training.

### THE PROJECT.

The project was a partnership between UGA, Escape distributors Advantage Sport & Fitness and Escape's UK-based gym design team. The impressive new facilities include frames and racks from Escape's Octagon range: BOX and HTS frames, and Hub Storage Walls. Escape training tools available for users include Sandbags, Bulgarian Bags, Slamballs, Kettlebells, Corebags, Plyosoft Boxes, TIYRs, a Quad Sled, Battle Ropes and Medballs.

### RESULTS.

One of the success factors in this project was that UGA thought hard about the programming they wanted to offer, and then chose equipment to make it possible. This helped them meet their goals of increasing patronage and improving the user experience. The functional training room is a world class facility used for PT sessions and group classes; an amazing destination that inspires users to get moving in more ways than ever before.

### WHY ESCAPE?

Students are excited by the opportunity to get in the functional training room, and when they do they rave about how much fun it is. We are ecstatic to continue to get more and more students in the room and experience all it has to offer.

**Scottie Gray, Assistant Director for Fitness and Wellness, University of Georgia**

## TRAINING.

The key to achieving motivated members is having coaches and trainers who are knowledgeable and passionate about training tools and techniques. That's what Escape Training is here to help you achieve.

After attending our workshops and courses, coaches and trainers say that they are able to add more value to their club members. Individual PT workouts and group sessions are created and delivered to a higher standard, with members getting more fitness benefits and having a great time too.

The Escape Training solutions are available in three ways:

### OPTION ONE – PRODUCT TRAINING WORKSHOPS.

Option one is a Product Training Workshop that ensures trainers are familiar with a type of product, whether it's kettlebells, SMR rollers and so on. These REPs accredited workshops are cost effective, yet full of information that will enhance any trainer's ability to run one-to-one and group sessions with clients.

### OPTION TWO – INSTRUCTOR TRAINING COURSES.

Option two is a one-day or two-day Instructor Training Course that goes into more detail about the products and training styles, with information about creating workouts with varying movements, reps, times and sets.

### OPTION THREE – CLUB PROGRAMS.

Option three is In-Club Programming and support via the online portal to further enable trainers to deliver exciting programs and workouts. The program models are designed to attract a variety of members and target all areas of fitness.

Customers can enter the system at any level and after consultation with Escape Training we can suggest the best development program for your training team, based on achieving better results for your members and your bottom line. It all adds up to highly beneficial opportunities for trainers to come away more confident and capable in helping members to get more from their gym time than has ever been possible. This in turn ensures gyms and clubs see better return on their investment in products and in their training staff.

# ONLINE PRODUCT TRAINING WORKSHOPS.

Trainers and coaches can develop comprehensive skills and knowledge with our Product Training Workshops. Each workshop includes video demonstrations of multiple exercises, created by Escape's Master Trainers. It's like having product experts deliver one-to-one instruction, but with the convenience of online delivery.

In addition to the online delivery format, we also run two-hour Product Training Workshops in clubs for groups of trainers. Clubs typically purchase three or four workshops (covering different products) to run on the same day. Participants in the in-club workshops also enjoy full access to the online support materials.

# INSTRUCTOR TRAINING COURSES.

Our REPs and NASM accredited in-club Instructor Training Courses provide customers with in-depth knowledge of a product or training method.

They are naturally very practical and hands-on, yet crucially always cover the need-to-know theory, so trainers can implement their skills successfully with all clients.

Course delegates also get online access to course manuals and exercise videos that show all of the techniques covered in the training itself.

## BULGARIAN BAG – INSTRUCTOR TRAINING COURSE.

## IN-CLUB GROUP PROGRAMMING.

The demand for brilliant group training experiences is growing fast. At the same time, functional training tools are often under-used in clubs. That's why we've created a solution: group training programs that activate the equipment by showing members how to use it effectively, and that deliver amazing experiences focused on achieving their best ever fitness results.

### WHY GO GROUP FUNCTIONAL?

Group functional training actually achieves two things at once. First, every group training program should include instruction in the proper use of functional equipment. Second, for a challenging, fun, varied and results-focused workout experience, nothing quite matches a great functional workout in a group environment.

Members who get into this style of training are more likely to feel fully engaged with fitness – and with the club and trainers making it happen for them.

### WHO CREATES PROGRAMMING FOR YOUR CLUB?

A big challenge for clubs is that program development is often left to one or two members of the training team. That's all right initially, but when these trainers leave the club it can be difficult to maintain the program, so member satisfaction is affected.

Escape has the solution: complete packages of trainer instruction and workout programming designed to ensure consistent delivery over the long term. Regardless of changes in personnel, the programming stays in place, owned by the club and designed to be run by any competent instructor.

### YOUR READY-TO-RUN 'BUSINESS IN A BOX' GROUP TRAINING SOLUTIONS

Everything you need is included, accessible online on the Escape Training portal and in an impressive set of binders presented in a smart box:

- Comprehensive instruction manuals for trainers.
- Videos and coaching notes of ready-to-run workouts and individual exercises.
- Instruction specific to each type of equipment, including relevant Product Training Workshops.
- Marketing materials to help you promote the programs to members.

These packages give your club tools that enable you to get the programs up and running fast, and include many months of scheduling. They ensure consistency of delivery, even when several trainers are involved, and will help members to achieve their best ever results.

These programs personalize functional training for members. They get intense periods of instruction from trainers and the best workouts they've ever had.

With three unique programs in Escape's suite - HIIT THE DECK, MOVE IT and BATTLE FIT - now every base is covered for every club and member.

### CORE PRINCIPLES OF ESCAPE'S PROGRAMS

When you invest in programming it needs to be there for consistent delivery over the long term. To do this, there are a few essential features of Escape's functional group programming:

**Flexible.** By offering you a suite of programming styles, you can select which ones suit your brand and are right for your target audiences.

**Expandable.** Trainer education resources will enable all your trainers to deliver the programs. This means you can grow the frequency of classes, either on a single site or across multiple locations.

**Progressive.** All of the programs can be shaped to suit people fairly new on their fitness journey, and change with them as they develop their ability and needs.

**Varied.** Variety is essential for ultimate member satisfaction, which is why each program includes multiple different workouts to keep people coming back.

**Fun!** Most people need a sense of fun to keep them motivated. So we include teamwork, partner drills, tests and challenges to create a real buzz during the workout.

**MOVE IT.**

**BATTLE  
FIT**

**HIT  
THE  
DECK.**

Read all about our training programs on **pages 232-237.**

## MOVE IT.<sup>®</sup> GROUP TRAINING PROGRAM.

MOVE IT is designed to achieve the maximal post exercise benefits of HIIT training, developing rest aerobic and anaerobic capacity to new levels. Participants move through a series of workout zones, with intervals, equipment and exercises carefully chosen to challenge energy systems while developing total body, functional strength and endurance.

To watch the MOVE IT promo video visit:

[www.escapefitness.com/us/training/move-it](http://www.escapefitness.com/us/training/move-it)

### WHAT DO MEMBERS GET FROM MOVE IT?

MOVE IT provides a fun, challenging, self-paced workout for members of most fitness levels. It has been designed from the ground up in a way that lets people of different capabilities work out together.

The typical MOVE IT participant will be looking for more variety and fun – and better results – than they can get from other workouts. It's the combination of the HIIT approach and the group format that packs such a punch. This leads on to much greater engagement with the club or trainer and a long-term commitment to their fitness journey.

### WHAT TYPE OF CLUB IS IT FOR?

Developed to have mass-appeal, this program is a brilliant way for larger clubs to engage more members than ever in functional training. It turns part of the gym floor into a dynamic, exciting group training space. Smaller group training studios can also achieve results with MOVE IT by integrating it as a key area of programming.

### As shown to right\*:

- 01 MOVE IT Packaging
- 02 Program Manuals, Workouts and Exercise Library

**PLEASE NOTE:** TRX is essential for MOVE IT. TRX must be ordered separately.

# BATTLE FIT. GROUP TRAINING PROGRAM.

BATTLE FIT is a team-based functional training program developed by former British Army officers, based around high-intensity 35-minute workouts. Tapping into the popularity of bootcamps, it pushes participants past their comfort zone to their best ever fitness levels. People who take part in a BATTLE FIT session will come away exhausted but with a huge sense of achievement.

To watch the BATTLE FIT promo video visit:  
[www.escapefitness.com/us/training/battle-fit](http://www.escapefitness.com/us/training/battle-fit)

### WHAT DO MEMBERS GET FROM BATTLE FIT?

BATTLE FIT is only for those looking to work out at extreme intensity. But it's not just for 'elite' members. It has been created with flexibility and safety in mind and can accommodate members of different abilities in the same session.

Trainers can ramp up the intensity for more advanced members, while at the same time instructing less able participants in a way that matches their capabilities. Whoever takes part, they will have the satisfaction of being involved in a session with plenty of camaraderie and team spirit.

### WHAT TYPE OF CLUB IS IT FOR?

Created for clubs who want to appeal to those looking for an especially demanding fitness program, BATTLE FIT is ideal for any club that wants to run a bootcamp-style program, indoors or outdoors. It can be run either on the gym floor, in a studio environment or out in the open. It's also a great option for personal trainers running small group bootcamps as all the equipment fits in the back of a car.

### As shown to right\*:

- 01 BATTLE-FIT Packaging
- 02 Workout Cards
- 03 Online Exercise Library
- 04 Marketing Material

\*For illustrative purposes only.  
Full list of what you will receive on right hand page.

### WHAT'S INCLUDED?

There are instruction manuals for trainers, 35-minute workouts, fitness tests, product-specific training workshops and an exercise library covering all of the workout components.

# HIIT THE DECK. GROUP TRAINING PROGRAM.

Imagine a large group or a compact boutique studio space, full of people moving quickly between step routines, plyometric jumps, resistance band work and bench presses. Using just the Escape Deck 2.0 and a handful of other carefully-chosen tools, we've created a program package that makes it possible.

To watch the HIIT THE DECK promo video visit:  
[www.escapefitness.com/us/training/hiit-the-deck](http://www.escapefitness.com/us/training/hiit-the-deck)

# HIIT THE DECK.

escape fitness

## WHAT DO MEMBERS GET FROM HIIT THE DECK?

HIIT THE DECK works superbly as an introduction to functional training for members who have had limited exposure to it so far. It includes exercises and workouts embracing cardio, strength and plyometrics, giving people a fantastic whole body experience.

Instructors can also ramp up the intensity for more advanced members. The pace and resistance levels can be increased according to participant fitness levels: there is no limit on the amount of challenge that can be achieved with HIIT THE DECK.

## WHAT TYPE OF CLUB IS IT FOR?

Thanks to its suitability for members of almost all abilities, this is an incredibly flexible solution that includes programming for PTs, standalone small group studios and boutiques, and large group studio spaces. It can be run as one of several programs in a club, but the sheer scale and variety of workouts means it also has the potential to be used as the basis for a club's entire programming.

## As shown to right\*:

- 01 HIIT THE DECK Packaging
- 02 Program Manuals, Workouts and Exercise Library
- 03 Online Exercise Library
- 04 Marketing Material

\*For illustrative purposes only.

Full list of what you will receive on right hand page.

## WHAT'S INCLUDED?

There are instruction manuals for trainers, 45-minute large group workouts (and the music to go with them), 20-minute small group workouts, one-to-one PT workouts, specialist boutique workouts and an exercise library covering all of the workout components.

## THE PACKAGE.

Here's what you get in your HIIT THE DECK package:

- Training Manual (binder and online pdf).
- Operations Guide (binder and online pdf).
- Exercise Library (videos with coaching notes).
- 6 exercise-to-music workouts of 45 minutes for large group programming (videos, coaching notes and ready-to-download music).
- 10 workouts of 20 minutes for small group programming (videos with coaching notes).
- 6 workouts for personal training (videos with coaching notes).
- 128 specialist boutique studio workout interval protocols covering lower, upper, core and total body (videos with coaching notes).
- The Deck Time Trial (video and template document).
- Marketing materials (posters, flyers and social media content for you to use).

**PLEASE NOTE:** HIIT THE DECK will be available in winter 2017/18 for online delivery and as a one-day face-to-face course. For codes and prices please contact your sales representative.

## HIIT THE DECK EQUIPMENT PACKS.

As well as the training/programming itself, clubs can also buy packs that include the Deck 2.0 and additional equipment including Resistance Tubes, GRIPRs, Bulgarian Bags and Urethane Dumbbells.

### HTDB001 HIIT THE DECK Training Program \$2,800.00

## THE ESCAPE YOUR LIMITS APP.

Now there's support for anyone working out with Escape's functional training equipment – in the gym, outdoors, at work or at home.

Available as a free download for Apple IOS and Android, the Escape Your Limits app has been designed to provide the gym goer, personal trainer or at-home enthusiast access to key workouts and exercises to help them get the most out of their Escape Fitness equipment. It demonstrates how to perform specific exercises, and provides workouts to achieve core improvement, strength, HIIT and weight loss goals.

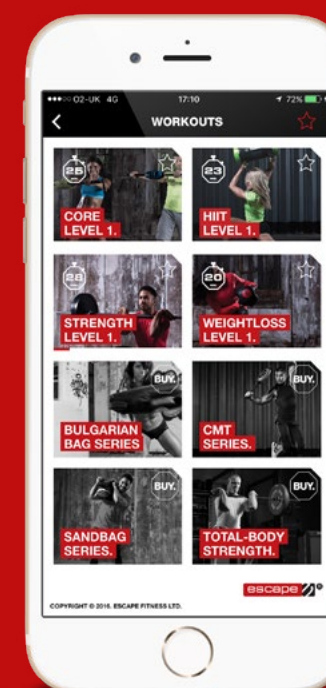

### FEATURES OF THE ESCAPE YOUR LIMITS APP.

Users can watch individual exercises or entire workout schedules performed by Escape trainers with a wide range of functional tools. Corebags, Sandbags, Multi Grip Medballs, Bulgarian Bags, CMTs, GRIPRs, Plyosoft Boxes, Kettlebells, Bars and Plates, VERTBALLs, Battle Ropes and TIYR are all included. Additional exercise options and workout routines beyond those offered for free can be purchased in-app.

#### EXERCISES.

Escape Master Trainers help you perfect your technique with four exercises per product.

#### WORKOUTS.

Each workout brings together different equipment and exercises for variety and motivation.

#### TIMER.

The timer calculates your work and rest times for you – start the clock and away you go.

# BEFORE YOU ORDER.

As exclusive Business to Business suppliers of Fitness Equipment to the Industry, Escape aims to make the Customer buying experience efficient and informative. Orders placed with Escape are subject to the standard Terms and Conditions of Business ("Conditions") contained in the following pages to the exclusion of any other terms or conditions that the Customer seeks to impose or incorporate or that may be implied by trade custom, practice or course of dealing. In the event that Goods are sold on to a third party, it is the Customer's responsibility to ensure the ultimate purchaser is fully acquainted with, and accepts the Conditions overleaf. No variation of these Conditions shall be effective unless expressly agreed in writing by an Escape authorised signatory.

**US DELIVERY**

Most Orders will be delivered as parcels by independent carriers. Where large Orders cannot be delivered as parcels, the Order will be delivered on pallets to the exterior access point of the delivery address (Freight prices available on application.) The Customer must provide adequate manpower to unload the Goods and dispose of all packaging supplied for transit.

**Product assembly and installation**

Please note that functional frames, the FunXtion Experience Station and equipment storage racks will require assembly after delivery.

**Customized, bespoke and special order products**

Once an Order has been placed and an Order Confirmation issued in respect of Goods that are customized, bespoke or special order, it cannot be amended or cancelled. Goods are customized when an element of the product is changed e.g. the Customer's brand color or logo is added. Bespoke Goods are specifically designed for the Customer and include, but are not limited to, flooring, functional frames and storage solutions. Special order Goods include products that are not normally held in stock or are ordered in a large quantity e.g. the FunXtion Experience Station or storage racks. Escape do not accept any liability for loss or damage incurred or suffered by the Customer as a result of inaccuracies made by them in the Order process. Accurate measuring is essential.

**MEASURING AND SURVEYS.**

When ordering large/heavy equipment or flooring, it is important that accurate measurements of the relevant area are supplied to ensure equipment will fit and can be used safely. Accurately measuring access points, corridors, elevators, stairs, and their height is equally important to ensure smooth delivery and installation. Escape recommends that all Customers arrange a survey which takes account of all these factors as well as the suitability of the product for a particular location.

**DAMAGES AND DELIVERY DISCREPANCIES.**

All deliveries must be checked as soon as received and before the delivery note is signed as any discrepancy or damage in the consignment must be notified to Escape immediately, and within 48 hours at the latest. Please note the time of delivery as recorded on the delivery note. If a discrepancy is identified, the Customer should telephone Escape's Customer Services Department with full details of the Goods ordered and the damage or discrepancy identified. At its sole discretion, Escape will either replace or repair the Goods. Reports of damage or discrepancy will not be entertained after the expiration of 48 hours from the time of delivery as recorded on the delivery note or similar device operated by the carrier.

**CANCELLATIONS AND RETURNS (NOT APPLICABLE TO CUSTOMIZED, BESPOKE AND SPECIAL ORDER GOODS).**

Once a quotation is accepted by the Customer placing an Order, Escape will issue an order confirmation. The customer may amend or cancel the Order within 14 days of the Order Confirmation and provided the Order has not been dispatched. A fee of 10% of the Order value will be charged to cover administration costs. Escape reserve the right to reduce the above fee, in its sole discretion when the amendment sought by the Customer is "de minimis" or there are other exceptional circumstances justifying the same.

Where Goods have been dispatched, the Customer may return some or all of the Goods for up to 14 days after receipt (as recorded by the carrier) provided that the Goods are returned to the supplier at the Customer's cost and in new and unused condition with all the original labels and packaging intact. A fee of 20% of the Order value will be charged to cover administration and stock handling costs. Goods may not be returned unless a returns reference number has been issued by Escape's Customer Service Department.

**NON-RETURNABLE ITEMS.**

Unless Goods are damaged or faulty, any customized, bespoke, or specially ordered equipment or flooring cannot be returned once an Order Confirmation has been issued. Items such as floor mats, gloves, mitts etc cannot be returned once dispatched for hygiene reasons.

**PRODUCT MEASUREMENTS.**

All sizes, weights and measurements are approximate.

**ORDERING MADE EASY.**

**Five ways to order:**

- 1. **Phone:** 614-706-4462
- 2. **Website:** [www.escapefitness.com/us](http://www.escapefitness.com/us)
- 3. **Email:** [salesusa@escapefitness.com](mailto:salesusa@escapefitness.com)
- 4. **Post:** Escape Fitness USA LLC  
4434 Muhlhauser Road, Suite 300,  
Cincinnati OH 45011.

**When placing an Order by post, the Customer should:**

- 1. Quote the product code, product description, quantity required, price and freight costs.
- 2. Include their unique purchase Order number (for account Customers this must have been authorised by an appropriate signatory).
- 3. Print the name, department and position of the person placing the Order.
- 4. Confirm the method of payment.
- 5. Provide full postal delivery address.  
NB Customers purchase Orders are only accepted from pre-approved Customers or account holders.

**PRICES**

All prices are in USD and exclude freight and tax. Trade accounts and bulk Orders may attract special pricing.

**PAYMENT**

Customers may use the credit/debit cards shown.

Card payments are required at the time of Order from non-account Customers. You may also pay by BACS or remit a check to the postal address above.

**FEEDBACK**

Escape believes in continuously improving its Goods and services. It can only do this by listening to its Customers. If you have a comment to make please Contact us at the address above or by email at [aftersales@escapefitness.com](mailto:aftersales@escapefitness.com) You may also call the Customer Service Team on 614-706-4462.

# TERMS AND CONDITIONS.

In these Terms and Conditions, Escape Fitness USA LLC is the Supplier and you are the Customer.

**1. ORDERS.**

- 1.1 All orders are subject to these Terms and Conditions ("Conditions") which supersede any terms and conditions you may include with any purchase order regardless of whether Escape sign these or not. We reserve the right to change these Conditions at any time, and you are deemed to accept any changes on the 7th day after the date of any amendment, or the date an order is placed, whichever is the sooner. In the event that products are re-sold, it is your responsibility to ensure that the ultimate purchaser is made aware of and accepts the products on that basis.
- 1.2 Samples, drawings or descriptive or illustrative advertising or other materials contained in brochures or catalogues do not form part of the contract.
- 1.3 Receipt of an electronic, telephonic or other form of purchase order does not signify our acceptance of your order, nor does it constitute confirmation of our offer to sell. We reserve the right, at any time after receipt of your order, to accept or decline your order for any reason, or to supply less than the quantity ordered of any item. Orders are accepted by the issue of an Order Confirmation, normally sent within 48 hours of receipt of your Order, at which time a binding contract will exist between us and the Customer may not amend or cancel the order without our written consent.

**2. PRICE AND PAYMENT.**

- 2.1 The price of the products shall be the price set out in the Order Confirmation. Prices are subject to change on not less than 30 days notice.
- 2.2 Payment for the products shall be made in full at the time the order is placed. Sales Tax will automatically be added to orders where liability arises unless Sales Tax Exemption and Re-sale Certificates have been filed. Please note: Sales Tax Exemption and Re-sale Certificates must be filed BEFORE orders are placed to ensure zero rating. We accept payment by company check (allow 10 days for clearance) or wire transfer in U.S. Dollars only. A penalty of \$25 will be charged for any returned payment whatever the reason.
- 2.3 Invoices are issued when the products are shipped.
- 2.4 Credit Account Customers shall pay for products in accordance with their credit account terms and time for payment shall be of the essence of the Contract. Interest is payable on overdue accounts at the rate of 1.5% per month (or such lower rate as may be the maximum permitted by law), accruing on a daily basis from the due date until the date of actual payment of the overdue amount.
- 2.5 Credit Account Customers shall pay all amounts due in full, without any deduction or withholding except as required by law and they shall not be entitled to assert any credit, set-off or counter-claim to justify withholding payment of any such amount in whole or in part. We reserve the right to revoke any credit extended in the event that you fail to pay in accordance with your credit account terms save where a good faith dispute (as determined by us) concerning sums due exists. When credit is revoked, products shall be paid for in advance of shipment.

**3. PRODUCTS AND SERVICES.**

- 3.1 Most products are available to ship immediately, however, some products may have lead times. Orders are accepted for products strictly subject to availability and to these Conditions.
- 3.2 Where orders contain multiple products, we will make every effort to ship all products contained in the order

at the same time. Products that are unavailable at the time of shipping shall be shipped as they become available unless you advise us to the contrary in writing. You will be charged only for products actually contained in the shipment. You will pay only a single shipping charge as advised in your Order Confirmation which shall be applied to the first invoice issued.

3.3 In the interests of better quality and value, we are constantly improving and updating our products. We therefore reserve the right to change the color, design, specification or packaging in respect of any or all of our product range.

**4. CUSTOMIZED, BESPOKE AND ASSEMBLED PRODUCTS.**

- 4.1 In respect of any Order for customized, bespoke or special order Goods (flooring, frames, the FunXtion Experience Station, racks etc), the Customer may not amend or cancel an Order once accepted (including positioning of equipment where installation is involved). It is imperative that all Customer requirements are fully and accurately conveyed to the Supplier prior to acceptance of the Order. The Supplier accepts no liability for costs, expenses, damages and losses (including any direct, indirect or consequential losses) suffered or incurred by the Customer or any sub-contractor, agent or third party employed by the Customer arising out of any delay in delivery or installation of the Goods where such delay is caused by inaccuracies of whatever nature in the Customers Order. To avoid such inaccuracies, the Supplier recommends a site survey of the installation premises. Surveys are carried out by our expert partners who will provide a Survey Fee on application. The liability to pay the Survey Fee arises on submission of the relevant Request Form. The site Survey Fee will be waived when the Customer places an Order including installation. Where Customers do not proceed with the installation for whatever reason, the site Survey Fee shall be invoiced and payable in accordance with clause 2.2 above.
- 4.2 All designs created in respect of any installation are subject to clause 11 below so that the Customer may not use such designs or any designs that the Supplier believes breach the Suppliers Intellectual Property Rights unless a separate contract for the purchase of a license to use the designs is negotiated and entered into. This clause 4.2 shall survive termination of the Contract howsoever determined.
- 4.3 To the extent that any element or component of the Goods (e.g. line markings, bench upholstery) are to be manufactured in accordance with color and/or design specifications supplied by the Customer, the Customer shall indemnify the Supplier against all liabilities, costs, expenses, damages and losses (including any direct, indirect or consequential losses) suffered or incurred by the Supplier in connection with any claim made against the Supplier for actual or alleged infringement of a third party's intellectual property rights arising out of or in connection with the Supplier's use of that component. This clause 4.3 shall survive termination of the Contract howsoever determined.
- 4.4 The Supplier reserves the right to amend the Specification of the Goods if required so to do by the manufacturer or any applicable statutory or regulatory body.
- 4.5 Where Contracts involve installation and the Customers installation area does not comply strictly with the Working Conditions Specification (" Specification") detailed in the Programme of Works; the installation shall be delayed until such time as the Customer is compliant with the Specification and the Customer shall be liable to the Supplier for all costs and expenses incurred by the delay. If the Customer delays an installation date on less than 14 days notice; the Customer shall similarly be liable to the Supplier for all costs and expenses incurred by the

delay. Without prejudice to the generality of this clause; time when appointed contractors are unable to perform the Contract ("Downtime") shall be payable to the Supplier hourly rate per man per day (based on an 8 hour day) plus full reimbursement of all travel, accommodation and other expenses properly incurred in anticipation of performance of the Contract and which cannot otherwise be recouped from the relevant provider by the Supplier (Wasted Costs).

**5. DELIVERY.**

- 5.1 Delivery lead times vary according to the products ordered. Products ordered from stock will be shipped within 48 hours of the date of the Order Confirmation. Any date quoted for delivery is approximate only, and time of delivery is not of the essence. We shall not be liable for any delay in delivery of the products that is caused by a Force Majeure Event (as defined in clause 5.5 below), or other event beyond our control, nor any failure by you to provide us with adequate delivery instructions, or any other instructions that are relevant to the supply of the products.
  - 5.2 Customized, bespoke, special order and assembled products have varying manufacturing lead times which will be notified to you as the estimated delivery date. A firm delivery date will be notified to you once the finished products are physically ready for dispatch.
  - 5.3 Delivery is complete once the products arrive at the exterior access point of the delivery address. Your(or your agents) signature recorded on the Delivery Note (or similar device operated by the carrier) shall be conclusive evidence of the quantities shipped and delivered.
  - 5.4 It is your responsibility to ensure that appropriate arrangements are in place to:
    - 5.4.1 accept delivery of the products; and
    - 5.4.2 where there are large/heavy products delivered; provide adequate manpower to unload the products and dispose of any transit packaging supplied.
  - 5.5 If you (or your agent) fail to accept or take delivery of the products in accordance with clause 5.4 above, then, save where such failure or delay is caused by a Force Majeure Event or by our failure to comply with our obligations under this Contract, then delivery of the products shall be deemed to have been completed at 9.00am on the day after the delivery date notified by us. We shall store such products until actual delivery takes place, and charge you for all related costs and expenses (including insurance) incurred in this respect. A Force Majeure Event means an event beyond the control of a party (or any person acting on its behalf), which by its nature could not have been foreseen by such party (or such person), or, if it could have been foreseen, was unavoidable, and includes, without limitation, Acts of God, storms, floods, riots, fires, sabotage, civil commotion or civil unrest, interference by civil or military authorities, acts of war (declared or undeclared) or armed hostilities or other national or international calamity or one or more acts of terrorism or failure of energy sources.
- 6. TITLE AND RISK.**
- 6.1 The risk in the products shall pass to you when delivery is complete.
  - 6.2 Title to the products shall not pass to you until we have received payment in full (in cleared funds). Until title passes, you shall hold the products on a fiduciary basis as our bailee, store the products separately from all other products held, and maintain the products in new condition and keep them insured against all risks for their full retail price on our behalf.
  - 6.3 In the event that you are unable, for whatever reason, to pay in full for the products, you hereby irrevocably authorize us, or our agents to enter your premises or the premises where the products are stored and take possession of the

products supplied. If any products which become subject to this clause 6.3 are sold or hired out by you to any third party before payment is made to us, then all monies received from such third party transactions are the property of, and will be claimed by us in satisfaction of, and to the extent only of any unpaid invoices.

**7. CANCELLATIONS, AMENDMENTS AND RETURNS.**

- 7.1 Once an Order Confirmation is issued, orders may only be amended or cancelled if :-
  - 7.1.1 the Customer formally notifies the Supplier in writing by email to [aftersales@escapefitness.com](mailto:aftersales@escapefitness.com) or Customer Services Department, Escape Fitness LLC., 4434 West Muhlhauser Road, West Chester, OH; and
  - 7.1.2 the notification is received within 14 days of the date of the Order Confirmation; and
  - 7.1.3 no products have been dispatched.A fee of 10% of the Order value (net of VAT) will be charged to cover administration costs in such cases. The Supplier reserves the right to reduce the above fee, in its sole discretion, when the amendment sought by the Customer is "de minimis" or there are other exceptional circumstances justifying the same.
- 7.2 Where products have already been shipped, and you wish to return some or all of the products; then in respect of products which require no assembly, they may be returned within 14 days after delivery (as recorded by the Carrier) provided you follow the procedure notified by the Customer Service Department who may be contacted on 614 706 4462 or in writing at [aftersales@escapefitness.com](mailto:aftersales@escapefitness.com) or Customer Services Department, Escape Fitness LLC., 4434 West Muhlhauser Road, West Chester, OH . The products must be returned to us and you must pay the cost of shipping. Returned products must reach us in a new and unused condition with all original labels and packaging intact. A re-stocking fee of 20% of the returned products value (net of tax) will be deducted from the sum to be refunded.
- 7.3 Be-spoke or customized products may not be returned.
- 7.4 Products may only be returned with a "returns reference number" which you can get from our Customer Service Team. No exceptions! Please call 614 706 4462.

**8. DAMAGES AND DELIVERY DISCREPANCIES.**

- 8.1 All deliveries must be checked as soon as received and BEFORE the Delivery Note is signed. When signing for a delivery, you are accepting that the correct number of parcels have been delivered and the products have not been damaged in transit. If there is damage or a discrepancy, you should either refuse the delivery or record the damage or discrepancy on the Delivery Note (or similar device operated by the carrier) and report the claim by telephoning our Customer Services Team within 24 hours of the delivery time. NOTE: the time of delivery is the time recorded on the Delivery Note (or similar device operated by the carrier). It is your responsibility to ensure that the actions above are followed BEFORE SIGNING as mistakes cannot be rectified once the products have been signed for. Reports of damage or discrepancy will not be entertained after the expiration of 24 hours from the time of delivery as recorded on the Delivery Note or similar device operated by the carrier.
- 8.2 Any latent damage to the products MUST be notified to us by telephoning our Customer Services Team immediately upon discovery when you will need to supply us with full details of the products ordered and the damage identified. In our sole discretion, we will either replace or repair the products.

**9. INTELLECTUAL PROPERTY RIGHTS.**

You acknowledge that all intellectual property rights in the products (including actual products as well as product, flooring and gym design), whether registered or unregistered and including all applications for and renewals or extensions of such rights, and all similar or equivalent rights or forms of protection in any part of the world including all patents, rights to inventions, utility models or prototypes, copyright and related rights, trademarks, service marks, trade, business and domain names belong to, or are used by Escape under Licence or one of its associated companies. You agree not to use the same unless a license has been granted within a contract for the provision of products by us or one of our associated companies.

**10. PRODUCT COMPLIANCE.**

10.1 All products supplied by us comply with all applicable laws (including patent laws) statutes, rules and regulations of the United States government and any related law, rule or regulation. Whilst we endeavour to ensure that the product images, descriptions, weights and measurements which appear in any of our literature are fair and accurate; the colour, packaging and product specification may vary according to manufacturing changes, tolerances and availability. We reserve the right to discontinue or change the specification and/or the design of a product without prior notice N.B. All weight indications are KG dominant and conversions to Lb's are therefore approximate. We accept no responsibility for any error or omission to the Customer or at all.

10.1 You agree to use the products delivered herein in accordance with all applicable laws (including without limitation all patent laws), statutes, rules, regulations or orders of the United States government or of any state or political subdivision thereof.

10.3. We agree to indemnify you from (i) any and all judgments and decrees that may be entered against you or your affiliates, arising out of the use or supply of the products, whether it be immediate or remote, and (ii) any and all costs and expenses that you may incur by virtue of our violation of any such laws (including any claims for infringement, whether such infringement be direct or indirect). We agree that we will, at your request and our sole cost and expense, defend or assist in the defense of any suit or action that may be brought against you, your affiliates, immediate or remote, with respect to any violation or infringement.

**11. WARRANTIES AND LIMITATION OF LIABILITY.**

11.1 We warrant to the original purchaser that the products supplied (deletion) under this Contract shall be free from defects in materials and workmanship and comply with all applicable statutory and regulatory requirements for not less than the warranty period stated on the website in respect of each product and subject to specific product exclusions listed therein.

11.2 We shall not be liable for the products' failure to comply with the warranty in clause 11.1 if:

- 11.2.1 you make any further use of such products after notifying us of a defect; or
- 11.2.2 the defect has arisen as a result of your failure to properly store, care for or maintain the products; or
- 11.2.3 the defect has arisen as a result of us following any drawing, design or specification supplied or specifically requested by you; or
- 11.2.4 you alter or repair the products without our prior written consent; or
- 11.2.5 the defect arises as a result of fair wear and tear, corrosion due to perspiration, wilful or negligent damage or the use of the products for a purpose other than the purpose intended or in abnormal use conditions; or

11.2.6 the products differ from their description as a result of changes made to ensure they comply with applicable statutory or regulatory standards.

11.3 Where a warranty claim is made, you are responsible for returning the product to us for inspection (including shipping) following the returns policy outlined in clause 7.4 Once inspected, we will, at our sole discretion, repair or replace the product, issue a credit note or where we find the claim unsubstantiated reject and return the product to you.

11.4 Except as provided in this clause 11, we shall have no liability to you in respect of the products' failure to comply with the warranty set out in clause 11.1 or otherwise. We assume no responsibility for personal injury or property damage by or through the use of products supplied by us.

11.5 THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, ARISING BY LAW OR OTHERWISE INCLUDING WARRANTY, MERCHANTABILITY OR FITNESS FOR PURPOSE, AND IS IN LIEU OF ALL OTHER LIABILITIES OF ESCAPE FITNESS USA LLC INCLUDING DIRECT, INDIRECT, SPECIAL AND CONSEQUENTIAL DAMAGES OR PENALTIES EXPRESSED OR IMPLIED WHETHER ARISING OUT OF CONTRACTING, NEGLIGENCE OR TORT.

**11. GENERAL.**

12.1 These Conditions, including the documents referred to herein, supersede all prior representations, understandings, agreements and contracts between us relating to the supply of products and sets forth the entire agreement and understanding between us.

12.2 Nothing in this Contract is intended to, nor shall be deemed to, constitute a partnership or joint venture of any kind, nor constitute any party the agent of another party for any purpose. No party shall have authority to act as agent for, or to bind, the other party in any way.

12.3 A person who is not a party to the Contract shall not have any rights under or in connection with it.

12.4 You may not assign or sub-contract any of the rights or obligations imposed by this Contract unless agreed to in writing by us.

12.5 We reserve the right to transfer, assign, novate or sub-contract the benefit of the whole or part of any of its rights or obligations under these Conditions or any related contract to any third party.

12.6 No delay or failure by us to exercise any powers, rights or remedies under this Contract will operate as a waiver of them nor will any single or partial exercise of any such powers, rights or remedies preclude any other or any further exercise of them. To take effect any waiver must be in writing and signed by one of our authorized signatories.

12.7 This Contract, and any dispute or claim arising out of or in connection with it or its subject matter or formation (including non-contractual disputes or claims), shall be governed by, and construed in accordance with the laws of the State of Ohio, and the parties irrevocably submit to the exclusive jurisdiction of the Ohio District Courts.

# GENERAL WARRANTY INFORMATION.

All Escape Fitness products are warranted to be free from defects in materials and workmanship. This warranty extends to the original end-user and additionally warrants that the products comply with all applicable statutory and regulatory requirements. The warranty period commences on the date of delivery to the end-user (as recorded by the carrier) provided always that this date is not more than 3 calendar months from the date of dispatch from Escape. Subject to the Exclusions section herein, the warranty is valid for not less than the period stated in the schedule below.

**EXCLUSIONS.**

Escape shall have no liability under the warranty if:

- (a) any further use of the product(s) is made after a defect has been notified; or
- (b) the defect has arisen as a result of a failure to properly store, care for or maintain the products; or
- (c) the defect has arisen as a result of Escape following any drawing, design or specification supplied or specifically requested by you; or
- (d) the product(s) is altered or repaired without our prior written consent; or
- (e) the defect arises as a result of fair wear and tear, corrosion due to perspiration, wilful or negligent damage or the use of the products for a purpose other than the purpose intended or in abnormal use conditions; or
- (f) the products differ from their description as a result of changes made to ensure they comply with applicable statutory or regulatory standards.

**MAKING A CLAIM.**

To make a warranty claim, you should follow the claims procedure below. Once determined, Escape will, at its sole discretion, repair or replace the product, issue a credit note or refund, or, where the claim is found to be unsubstantiated, reject (and where appropriate) return the product to you.

**CLAIMS PROCEDURE.**

1. If you purchased your product through an Escape approved Distributor, contact your Distributor who will deal with your enquiry directly on your behalf.
2. If you purchased your product directly from Escape, you will need to either telephone Escape's Customer Services Department on +1 614 706 4462 or email judy.sutter@escapefitness.com quoting the Order Number of the product which is subject to the claim and provide full details of how and when the product(s) has been used, the fault or damage identified and contact details of the person dealing with the claim. The claim will be logged and given a unique "X" reference which needs to be quoted in all future dealings with the claim.

3. You must then send photographic evidence by email or post of the product and the damage/defect after which our quality control department will report their findings and advise whether the claim is accepted or rejected. If accepted, we will advise whether the product will be repaired or replaced, or if a credit or refund will be made and whether or not the product(s) needs to be returned to Escape for quality control investigation.
4. If a product(s) needs to be returned to Escape, we will contact you to arrange a mutually convenient time.
5. After your claim has been processed we will contact you again to ensure that your claim was satisfactorily solved.

Escape shall not be liable, in contract or tort, (including, without limitation, negligence), for pre-contract or other representations (other than fraudulent misrepresentations) or otherwise arising out of or in connection with a claim for any economic losses (including without limitation loss of profit, revenue, contracts, business or anticipated savings); loss of goodwill or reputation or special or indirect losses suffered or incurred and arising out of or in connection with the provision of the products. Escape's aggregate liability (whether in contract, tort or otherwise) for loss or damage shall in any event be limited to a sum equal to the amount paid or payable for the product(s) in respect of one incident or series of incidents attributable to one cause.

Please refer to [www.escapefitness.com/us/warranties](http://www.escapefitness.com/us/warranties) for full product warranty schedule.
